

Tennessee Smart Meter Opt Out Bill Needs your Support!

- ◆ Please call or email Today - no later than Monday, March 11th.
- ◆ Keep your message positive, short and simple.
- ◆ You can call after hours and leave a message - it still counts!

“Support SB-2232 and Smart Meter Opt Outs - protect our health freedom & privacy!”

“Vote YES on SB-2232! Other states already allow Smart Meter opt outs - it’s time for Tennessee to do the right thing!”

“We support our utility companies and personal freedoms - Support Smart Meter Opt Outs - Vote YES on SB-2232!”

Please call **each** committee member and ask them to **Vote YES on SB-2232:**

1. Sen. Richard Briggs (Chair) 615-741-1766 sen.richard.briggs@capitol.tn.gov
2. Sen. Page Walley (Vice Chair) 615-741-2368 sen.page.walley@capitol.tn.gov
3. Sen. Mark Pody (2nd Vice Chair) 615-741-2421 sen.mark.pody@capitol.tn.gov
4. Sen. Ed Jackson - 615-741-1810 sen.ed.jackson@capitol.tn.gov
5. Sen. Sara Kyle - 615-741-4167 sen.sara.kyle@capitol.tn.gov
6. Sen. John Stevens - 615-741-4576 sen.john.stevens@capitol.tn.gov
7. Sen. Ken Yager - 615-741-1449 sen.ken.yager@capitol.tn.gov
8. Sen. Jeff Yarbrow - 615-741-3291 sen.jeff.yarbrow@capitol.tn.gov
9. Sen. Adam Lowe - 615-741-1946 sen.adam.lowe@capitol.tn.gov

- SB-2232 allows residents of Tennessee to opt out of having a Smart Meter on their property, and have an analog meter installed instead.
- Smart Meters are associated with biological harm. People have a right to protect their health, without being exposed to microwave radiation 24 hours a day, 7 days a week - that they cannot turn off.
- Some people get very sick when exposed to radiation and dirty electricity from Smart Meters, and cannot live in a home with Smart Meters. Others may not feel effects right away, but after prolonged exposure, experience declining health, such as the diabetes, heart disease, cancer, and neurological diseases from which many suffer from today. Also headaches, insomnia, tinnitus, fertility issues, "brain fog" and memory problems are common symptoms of EMF exposure.
- Privacy is also a concern. Smart Meters record energy usage second by second, in real time, all the time. Without our consent, this is a breach of our privacy rights.
