

Weight & Balance and Equipment List		N999GX																																																																																																																																					
Type of Aircraft:	REMOS GX	Minimum Equipment List																																																																																																																																					
Serial Number:	406	Description	Type location [mm/inch]																																																																																																																																				
Technical Data 1. Reference Point R.P. Wing Leading Edge Fuselage 2. Reference Line R.L. Wing Main Chord		Magnetic Compass	C2400 or equivalent -250 -9.8																																																																																																																																				
		Airspeed Indicator	REMOS specification -250 -9.8																																																																																																																																				
		Altitude Indicator	4FGH40 or equivalent -250 -9.8																																																																																																																																				
		SkyView (primary screen)	SV-D700 -250 -9.8																																																																																																																																				
		SkyView (EMS module)	SV-EMS-220 -250 -9.8																																																																																																																																				
		Engine	R612 UL-S, SN 6.779.234 -1010 -39.8																																																																																																																																				
		Propeller	CR3-65 -1350 -53.1																																																																																																																																				
		Airbox w/ carb preheat	REMOS -660 -26.0																																																																																																																																				
		ELT	Arlex ME408 900 35.4																																																																																																																																				
		Main Landing Gear Steel 4.00-6	REMOS 950 37.4																																																																																																																																				
		Nose Landing Gear Steel 4.00-4	REMOS -660 -26.0																																																																																																																																				
		Safety Belts LH	8-2620MOMON22-88 340 13.4																																																																																																																																				
		Safety Belts RH	8-2620MOMON22-88 340 13.4																																																																																																																																				
		Battery	min. 8Ah -660 -26.0
