

## **HARBOURS, SHIPPING & PILOTAGE COMMITTEE**

**COMMITTEE OFFICE, LA CHASSE MARETTE, SARK GY10 1SF**

### **Invitation to Tender**

#### **Remedial Works to Address Erosion Beneath Dinghy Racks, Maseline Harbour**

The Harbours, Shipping & Pilotage Committee is seeking expressions of interest from contractors to undertake remedial works to address an area of erosion beneath the dinghy racks at Maseline Harbour.

The Committee has engaged Geomarine to undertake a site visit and provide specialist advice on the most appropriate method of repair.

Works are expected to involve a substantial repair, potentially including a concrete pour of approximately 50 tonnes, although the final scope will be determined following the site visit.

The successful contractor will be expected to:

- Attend a site meeting with representatives of Geomarine.
- Assist in developing a practical solution to the issue.
- Provide the labour, plant and equipment required to carry out the agreed works.
- Undertake the works in accordance with the final specification.

At this stage, contractors are invited to submit:

- Details of relevant experience.
- Confirmation of availability to undertake the works.
- Indicative labour and plant rates.

A fixed-price quotation is not required at present, as the final scope of works will be determined following the site assessment.

The Committee is keen to identify a contractor in advance of the Geomarine visit so that the successful contractor can be involved in discussions regarding the proposed repair works from the outset.

Expressions of interest should be submitted to the Committee Office by **Friday 25 September 2026**. The site visit and work will be as soon as possible after.
