

## **THE DOUZAINE**

The Committee Office, La Chasse Marette, Sark, GY10 1SF  
douzaine@sarkgov.co.uk

### **Roads**

The Douzaine kindly requests that, when residents are cleaning, sweeping or washing their patios and buildings, they do not allow debris to accumulate in the roadway.

If debris does come into the road or gutter from your property, please remove and dispose of it. Please also ensure that any water run-off does not damage our roads.

Obstructions to gutters and roadways caused by accumulated debris are not just unsightly but also cost the Island money by requiring more maintenance to both gutter and the associated road.

This also applies to properties which discharge their run-off water directly onto the public roads. Please consider an alternative method such as soakaway or storage for later use as this will reduce road maintenance costs and save the Island money.
