

# Garden/Green Waste

The Douzaine would wish to inform the residents of Sark that Public Works will no longer be collecting garden or green waste.

The alternative suggestions would be either composting on your own property, or if disposal is the only alternative, employ a carter to remove it on your behalf.

Public Works, however, will no longer be available to collect your garden or green waste.

This change will come into effect in the week beginning:

**11<sup>th</sup> August 2024**

This change will not affect any other rubbish collection(s).
