October 7th 2020

The Medical & Emergency Committee regret to inform residents that on the instructions of Mr Jackson, owner of Sark Electricity Limited the power supply to the nineteen properties who received power from a transformer sited at La Tour on Mr Moerman's land was disconnected at 13.05hrs on the 7th October 2020.

The Committee are working to reconnect all residents to generator power, this work commenced immediately after disconnection and will provide continuity of supply until further notice.

It is regrettable that despite the alternative options offered to Mr Jackson, he has chosen to disconnect the electricity supply rather than commence work to install new cabling or to re-site the existing equipment.

Representatives of Policy & Finance Committee, and Medical & Emergency Committees have invited Mr Jackson to meet with them to discuss the matter.
