Update re New Power System.

A tender process to source bids for a replacement island owned electricity generation and distribution system was agreed at the end of the Summer 2022.

The deadline for the first stage of this tender process concluded on the 24th December 2022 and we are pleased to inform you that 7 bids in total were received.

These were not all prime contractor bids, with some firms only submitting Expressions of Interest for certain aspects of the new system.

Nevertheless it was an encouraging response with solid EOI's from some reputable companies.

The review panel of Communities for Renewables, Exeter |University, Guernsey Electric and representatives from P&F and Future Energy will be going through these EOI's to clarify a number of areas and down select 3 parties, or 3 groups of parties for the next bidding stage.

Conseiller John Guille

Chairman

Policy & Finance Committee
