We are aware that despite electricity bills for September being some 4 weeks away from issuing some residents who have objected to the proposed 'levies' have already been threatened with the immediate installation of pre-payment meters or the termination of electricity supply. To enable the Medical and Emergency Services Committee to have an accurate ongoing understanding of the situation, while there is no compulsion to do, so we would ask those persons or businesses affected to please inform:

The Medical and Emergency Services Committee by email at:
