LA COUPÉE RE-OPENED TO TRAFFIC

La Coupée will be re-opened to traffic on Saturday 25th January.

This is restricted to tractors and trailers with light loads only (max 750kg to be carried in trailers).

This restriction remains in place until the rest of the walled areas on the western side can be physically inspected, and potential works carried out to stabilise and prevent undermining. This will happen at the next available opportunity.

La Coupée is fully open to pedestrians, bicycles and carriages.
