Revised Payment Terms - Sark Electricity Limited (SEL)

SEL have recently revised their payment terms for customers with a 7-day period to settle invoices and a policy to no longer accept payment by cheque - a particularly important facility for Sark's more vulnerable elderly residents.

It is important to stress that any potential compulsory purchase of physical assets or contractual interests does not justify unreasonable demands for immediate payment of outstanding bills or changes to existing payment arrangements.

Support from Chief Pleas has been arranged through the Island Safeguarding Officer for those who may require assistance in meeting these revised terms.
