

SPC Flooring Maintenance

The waterproof SPC Flooring Maintenance and cleaning is very easy. SPC flooring is not only cheaper than solid wood floor, but is much easier to clean and maintain. SPC flooring products are waterproof, but it can be damaged by improper cleaning methods. It only takes a few simple steps. You can enjoy your SPC floor and the SPC flooring will keep it's natural look for very long time.

Use a lightweight vacuum or broom to remove dirt and debris. Depending on how much traffic your flooring endures, will determine how often you will need to sweep.

SPC flooring maintenance is also very easy. Choose a mop you like, the mop can be damped as your SPC floor is totally waterproof. Do not forget to rinse the floor after using a soap. Wash another mop with clean water and run the clean mop over SPC flooring.

When we want to deep clean the SPC floor, we can add some white vinegar into the water. If the white vinegar does not work, we can also add some dish soap together. Pls note, Strong, abrasive cleaners and wired brushed scrubbing pads should not be used on SPC flooring. This will destroy the top layer of SPC floor.

Put a doormat on the outside of the door. A doormat will help keep out the dirt and some chemicals. Put the floor protectors for furniture and other heavy electrical equipment. It will be much better if we do not use the rolling casters.

Besides, SPC floor does not require any wax.

SPC floor works great in wet areas and heavy traffic areas. It is very easy to clean and maintain SPC floor is the most popular floor right now and we are sure that SPC floor is also floor future.
