INSTRUCTIONS: Remove the screen from the kitchen faucet and sanitize the spout with Javex, alcohol or bacterial cleaner. Run the cold water approx. 10 minutes and fill the sterile bottle to **90% capacity**. Return the sample to Aztech within 24 hours. Keep the sample refrigerated. **DO NOT FREEZE**. Chlorinated samples must be collected in bottles precharged with preservative. Client is responsible for sample integrity prior to submission. Samples that are collected, handled in a manner that is unfit for reliable results may not be tested. Aztech subcontracts chemistry testing. Aztech performs in house potability testing but may be subcontracted when necessary.
