

Free Shaping Tools Guide

To Request Shaping Tools

Send us an email at customersupport@rubiconfoodsco.com or fill out the form on the [Start Here](#) page for the Puree Shaping Course.

Please only request tools if you have **just purchased or if you are currently purchasing** the Rubicon mixes.

With Purchase of Rubicon Puree Bread Mix

Scoop into the waffle or bundt cake mold, then flip onto a sheet pan (if shaping in advance) or directly onto the plate. Bundt cakes can be used for desserts using the Dessert Recipe Flavors or for cinnamon rolls using the Scoop & Shape Breakfast Recipes.

With Purchase of Rubicon Puree Pasta or Rice Mixes

On the serving line, scoop into the ricer and pump out onto the plate. For spaghetti or fettuchini noodles, pump out in a continuous circle. For elbow macaroni or rice granules, pump out short strands, catch them on the plate and pull up with the ricer.

With Purchase of Rubicon Puree Shaping Mix

Chicken, pork chop, fish & stacked meat molds are automatically included with Puree Shaping Mix case order. Scoop protein into mold and flip onto plate. Can be pre-molded in bulk, in advance. Follow [Large Volume Protein Production Guide](#).

We do not provide the bread mold for free. You can purchase a set of 4 at [SimplyThick's website](#) or from your distributor.
