I just wanted to thank everyone at Martin pools that had anything to do with transforming my backyard into the most wonderful paradise my family has ever had. The seven years we lived in this house prior, we dreaded even stepping out on to our measly little ugly back porch. Now we have relatives coming in from all over the states just to hang out with us and our new found paradise... This is Dan Osgood, Please share with everyone in the group my thanks for an amazing job well done.

RE: Brown/Dabrusco pool construction

I would like to take this opportunity to tell your company what a fine job you did for us building our pool, we are so happy with it and it's being used daily. The workmanship is superb and the people that came to build the pool were informative, well mannered and talented.

I want to especially thank Serra who was our liaison during the whole project, she was so helpful and kind. She answered all our questions and always ensured us that it would get done on time, and no matter how many times I called her with any concerns, she was always cheerful and reassuring. Everything worked out fine and it all got done in time as promised and she always made sure that all concerns were addressed in a timely fashion.

If you ever need a testimonial, please feel free to give my number to whoever would like one. (321-223-7099).

Thanks again for a job well done.

Sincerely,

Marie-Louise Dabrusco

Marie-Louise Dabrusco
