Dear Friends - Lisa and Family.

First receive much and warm greetings from your friend Denis. How are you? I hope you are fine. My family and I are fine. We all miss you in my family. In my studies I am doing well. At the end of this term I had four hundred marks. This is my last in primary level. I thank you for the support you have given me since I came in this school. We pray to God for you to continue with the same spirit of paying school fees. Because of your support, here in school I keep myself busy in studies. May God bless you.

Yours faithful
Denis Munene
