Dear friends - Lisa and Family.

First receive much greeting from your friend Joseph, how are you? It is my hope that you are fine. On my side I am fine together with family members.

I am continuing doing well in my education. We are breaking for ~~end term~~ ^{holiday} term on date 9/8/2016 and I am in class eight and on the month of November I am going to sit for my national examination council. And it is my will that I am going to do best in that exam.

The main aim of writing this letter is to thank you for your support and it is my hope that you are going to support me so that I can do better in my education and even a good person in the country and even in the world. I would like to be a pilot.

yours faithfully
Joseph mwenda
