

SEPAR International

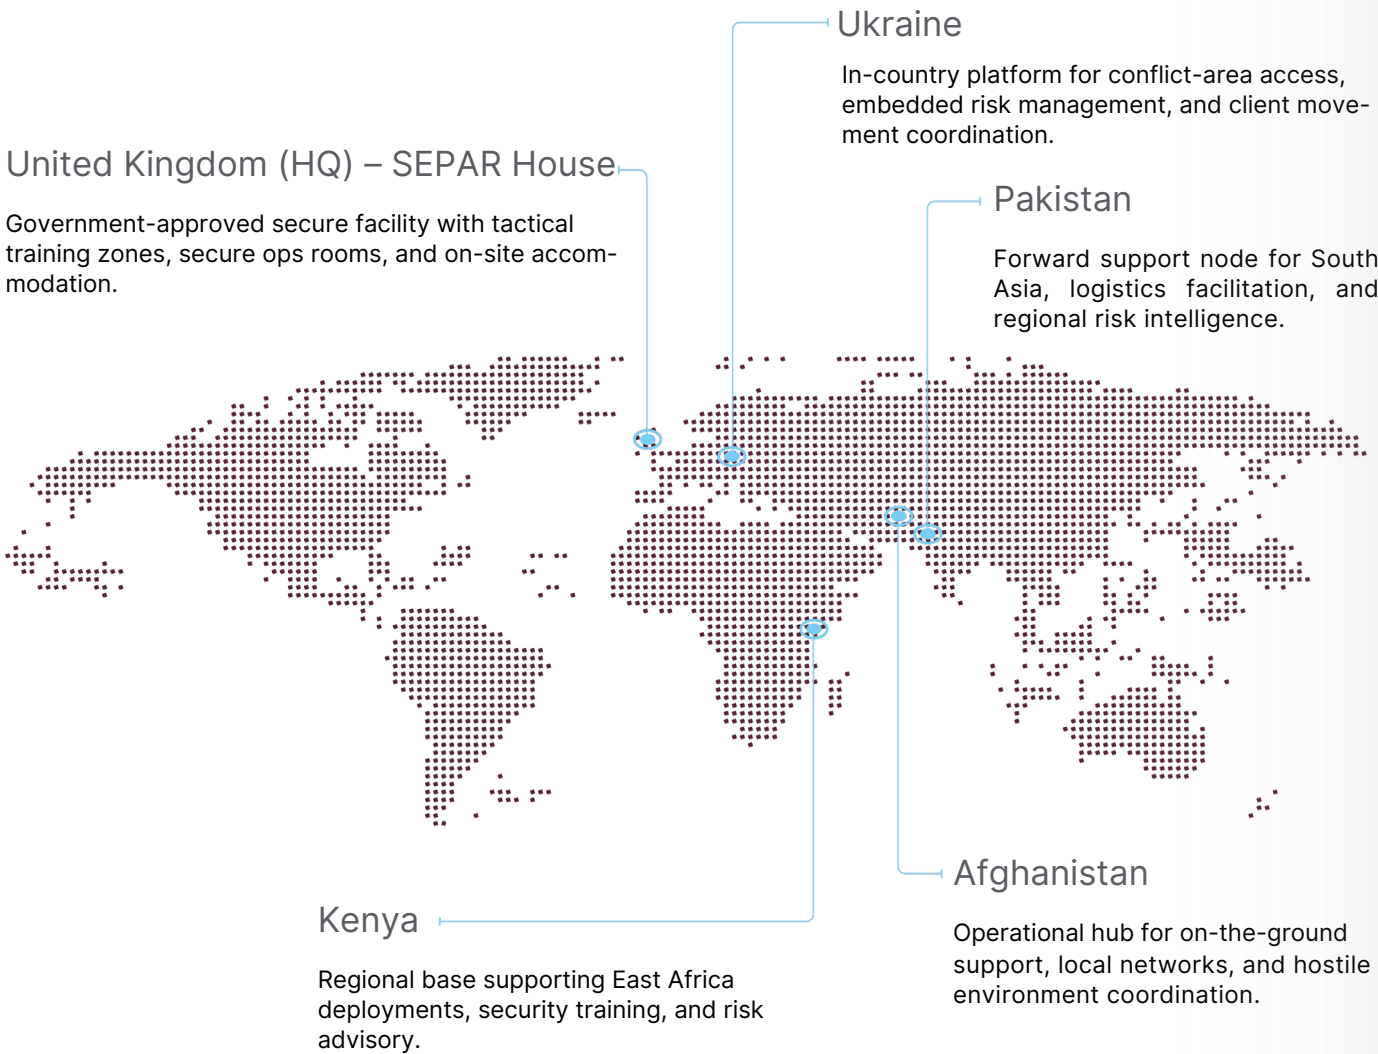

Capability Brochure

About SEPAR International

Trusted by Governments. Deployed Globally. Built for Risk.

SEPAR International is a security and risk management company specialising in hostile environment operations, training, and intelligence-led advisory services. With over 15 years of global delivery experience, we support clients operating in some of the world's most complex and unstable regions, offering capability that extends beyond conventional security provision. SEPAR International has delivered across more than 50 countries, with active strategic offices in:

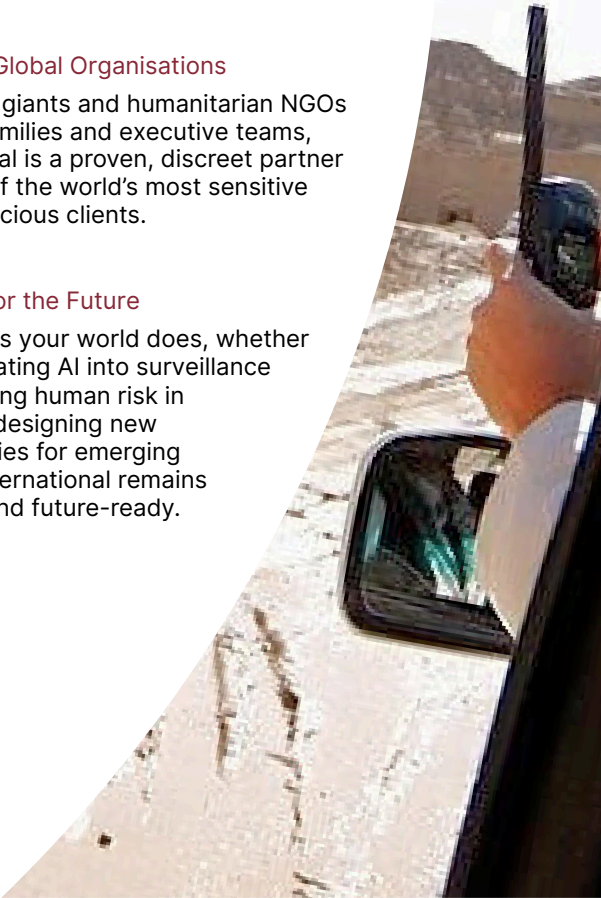

SEPAR is known for its discreet delivery model, culturally sensitive operations, and commitment to field-proven practices. Our reputation is built on results, not claims, and we are trusted by clients where many providers are not even permitted to operate.

SEPAR International's Strategic Edge

A global leader in security, risk management, training, and logistical support with deep expertise in operations across hostile and complex environments worldwide.

- 1 Discreet by Design**
We specialise in low-profile, high-impact operations. Whether supporting high-net-worth individuals or operating in fragile states, SEPAR International delivers effective protection without drawing attention, preserving both security and dignity.
- 2 Global Reach, Local Insight**
With active operations in over 50 countries and offices in the UK, Kenya, Ukraine, Afghanistan, and Pakistan, we combine international standards with deep local knowledge. Our trusted network of facilitators ensures support wherever it's needed, whenever it's needed.
- 3 Integrated Capabilities Under One Roof**
Unlike fragmented service providers, SEPAR International delivers a full-spectrum solution, risk assessments, secure mobility, cyber protection, close protection, training, and advisory. This integrated model ensures continuity, coordination, and quality across all engagements.
- 4 Operational Excellence in Complex Environments**
Founded in conflict zones and tested in some of the world's most challenging regions, SEPAR International brings unmatched experience in hostile, high-risk, and fragile contexts.
- 5 Tailored, Not Template-Based**
Every service we deliver, from evacuation plans to cybersecurity roadmaps, is customised to your needs, environment, and risk profile. We don't offer off-the-shelf solutions, only what fits, works, and protects.
- 6 People-Centred, Ethically Grounded**
Whether training teams or supporting trauma-affected individuals, our approach is rooted in psychosocial care, inclusive design, and the principle of Do No Harm.
- 7 Elite Instructors & Advisors**
Our team includes ex-military, intelligence, and law enforcement professionals, as well as psychologists, cybersecurity experts, and strategic advisors, all with decades of frontline and executive experience.
- 8 24/7 Operational Support**
Our Operations Centre in Hereford, UK provides round-the-clock oversight, incident management, and live intelligence monitoring. Clients are never alone, support is always just a call away.
- 9 Trusted by Global Organisations**
From media giants and humanitarian NGOs to private families and executive teams, SEPAR International is a proven, discreet partner trusted by some of the world's most sensitive and security-conscious clients.
- 10 Adaptable for the Future**
We evolve as your world does, whether it's incorporating AI into surveillance systems, addressing human risk in cybersecurity, or designing new protective strategies for emerging threats. SEPAR International remains forward-looking and future-ready.

Core Capabilities

Intelligence-Led. Operationally Proven.

 **Risk Preventions**
SEPAR International provides security solutions to reduce risk before operations begin. Our services include comprehensive risk assessments, security surveys, and tailored audits to identify threats, support duty of care, and enhance resilience. We develop bespoke security plans and protocols, backed by seasoned experts with deep field experience. Travel risk briefings and regional intelligence prepare teams for safe deployment. All work is overseen by SEPAR International's founder to ensure strategic focus and quality.

 **Operational Protection**
We deliver 24/7 protection for personnel, assets and operations in high-risk environments. Our Hereford-based Operations Centre ensures constant risk monitoring and incident response, while our Security Risk Managers and Close Protection Operatives offer expert on-the-ground support. We offer static security for critical sites and comprehensive logistical support, including secure transport, accommodation, and journey management. All services are delivered with discretion, professionalism, and precision.

 **Private Client Protection**
SEPAR International provides discreet, intelligence-driven protection for high-net-worth individuals, executives, and diplomats. Services include customised close protection, 24/7 residential security with AI surveillance, secure transport, crisis travel management, and risk consultancy. We also offer vetted private staff recruitment and relocation support. With global reach and local expertise, we deliver professional security that fits your lifestyle without disruption.

 **Crisis Evacuation & Movement**
Specialising in emergency evacuations, repatriations and movements through conflict zones, supporting private clients, corporates, governments and NGO's. Our bespoke evacuation planning covers risk assessments, route mapping, safe assembly points, transport coordination and communication protocols. Backed by a 24/7 Operations Centre and a global network, we ensure swift, secure movement from planning through execution, even in volatile conditions.

 **Hostile Environment Training**
Delivering practical, field-tested training to equip individuals and teams for high-risk and complex environments. Our programmes combine theory, simulation, and trauma-informed methods to build real-world readiness. We offer Hostile Environment Awareness and First Aid Training (HEAT/HEFAT), certified First Aid and Mental Health First Aid, fire safety, defensive driving, women's personal safety, and psychosocial resilience courses. All training is tailored to sector, location, and risk profile, and delivered globally by experienced professionals.

 **Cyber Security**
Our cyber division supports ISO 27001 and Cyber Essentials alignment, threat mitigation, secure comms, and digital risk advisory. We deliver structured assessments, contingency planning, penetration testing, and vCISO support to ensure security extends beyond the physical domain, essential in hostile or compromised digital environments. Whether preparing for certification, defending against intrusion, or empowering your workforce, we offer complete end-to-end digital protection.

“Your knowledge, concern and humour all, without doubt, made this a hugely enjoyable experience. Whilst the subject matter is obviously, at times, distressing you never lost focus on what we, as a team, required. You always wanted to be involved and although this deployment must have been fairly tame to what you are used to, your enthusiasm never waned. I'd happily recommend you to other teams and look forward to another deployment with you in the future.” **BBC World**

”

Risk Prevention

Enabling Safe Access to High-Risk Environments

Operating in fragile and volatile regions demands more than reactive security, it requires a proactive, preventative approach. SEPAR International's prevention capabilities are designed to reduce exposure to risk before operations commence, creating a secure foundation for mission success. Our preventative services are built on operational insight, strategic foresight, and a deep understanding of the environments in which our clients work.

Comprehensive Risk Assessments

We conduct in-depth risk assessments that examine all aspects of your operations, people, infrastructure, movement, and reputation. These assessments identify, evaluate, and prioritise threats to help you:

- Understand your risk landscape
- Comply with duty of care obligations
- Make informed decisions about risk acceptance or mitigation
- Build resilience into your operational model

Our deliverables include practical, intelligence-backed recommendations that support both immediate and long-term operational safety.

1

Detailed Security Surveys

Our security surveys assess the physical and procedural vulnerabilities across your sites, facilities, or critical assets. We identify risks such as:

- Unsecured perimeters or access points
- Gaps in procedural compliance
- Exposure to insider threats or environmental hazards

Clients receive a clear, actionable roadmap to strengthen protective measures and align with international security best practices.

2

Tailored Security Audits, Plans, and Procedures

We design and implement bespoke security frameworks that reflect your organisation's structure, objectives and risk appetite. Our services include:

- On-site security audits
- Development of operational security plans
- Creation or refinement of SOPs, emergency procedures, and crisis response protocols

All planning is undertaken by professionals with over a decade of operational experience in high-risk environments. Our consultants have served as senior advisors or held top-tier security positions in government, NGO, or corporate settings.

3

Travel Risk Assessments and Briefings

Understanding regional dynamics is essential for safe travel in high-risk areas. We provide:

- Country-specific threat briefings
- Route and itinerary risk evaluations
- Guidance on medical, political, and environmental risks

Our travel risk briefings are tailored to the individual or team, equipping them with actionable intelligence, cultural awareness, and personal safety protocols before deployment.

4

Protection

Safeguarding People, Property, and Operations

SEPAR International delivers a comprehensive suite of protection services, designed to support your mission, protect your interests, and secure your success. Our on-the-ground teams, operations centre, and specialist personnel work together to provide 24/7 protection with discretion, integrity, and precision.

24/7 Operation Centre

Provides 24/7/365 risk monitoring and rapid response

Real-time threat tracking and incident control

Oversees medical emergencies and evacuations

Static Guarding & Site Security

Professional guarding for assets and infrastructure

Uniformed or discreet presence

Access control, perimeter defence, visible deterrence

Logistical Support & Facilitation

Mission-ready planning and in-country enablers

Secure transport, accommodation and movement

Journey control and permits, tracking and alerts via app

Security Risk Managers

On-ground advisory and risk mitigation

Live insights, crisis aid and compliance help

Trusted support in dynamic global environments

Close Protection Services

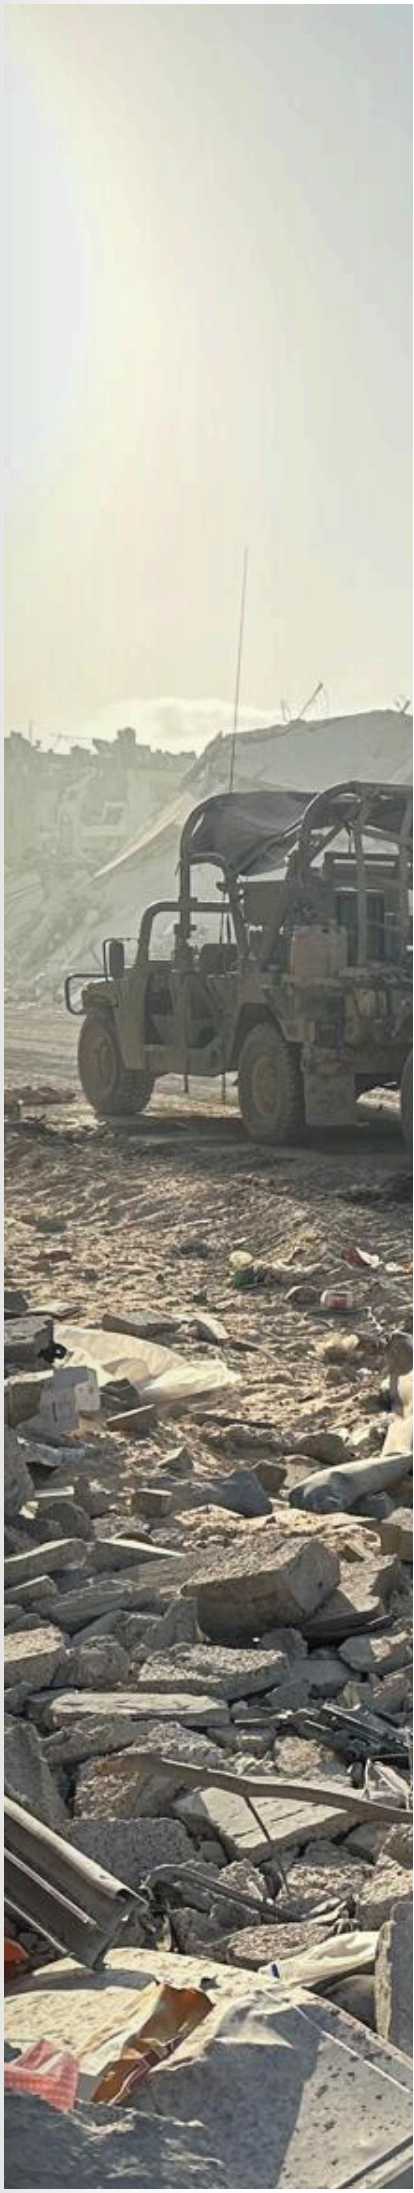

Supporting executives, diplomats and VIPs

Medically trained, vetted and SIA licensed operatives

Integration into client's lifestyle and routine

Discreet Private Client Protection

High Net Worth Security & Lifestyle Protection

SEPAR International offers discreet, intelligence-led protection for high-net-worth individuals, corporate leaders, diplomats, and other VIPs. We understand that security should never come at the cost of comfort or lifestyle. Our prestige services are designed to fit smoothly into your daily life, providing protection that is both low-profile and reliable.

Travel Management

From armoured transport to emergency evacuations to luxury travel security, we ensure safe, discreet travel worldwide. SEPAR International protects every journey, by land, air, or sea, with expert planning and trusted security teams.

Lifestyle Services

Supporting your lifestyle with secure travel, itinerary planning, private staff recruitment, household management, and relocation support. From sourcing trusted personnel to safeguarding your property, we keep your world running safely and efficiently.

Close Protection and Security Management

Delivering tailored, discreet protection led by experts from military and intelligence backgrounds. We support secure travel, manage risk, and respond rapidly to any crisis. Keeping you safe, wherever you are.

Residential Security & Estate Protection

Providing 24/7 estate protection through trusted security teams, smart access control, and AI-powered surveillance. From biometric entry to drone threat detection, SEPAR International ensures your home remains secure, private, and protected against modern threats.

Advanced Surveillance & Intelligence

Combining AI-driven CCTV, 24/7 operational oversight, and expert risk assessments to deliver smart, proactive security. We monitor, analyse, and respond in real time to protect every aspect of your safety.

Why SEPAR International?

- Discreet & Trusted: Confidential service with integrity
- Global Reach: Operate in over 50 countries
- Lifestyle-Focused: Protection without disruption

Movement

Secure Relocation, Evacuation & Extraction

Whether responding to political instability, armed conflict, environmental disaster, or urgent security threats, SEPAR International is a trusted partner for the delivery of critical movement and extraction capabilities in complex environments. We support private clients, corporate teams, governments, and NGOs with the safe and discreet relocation of individuals and groups, even under deteriorating or high-risk conditions.

We support:

- Government agencies managing emergency movement of nationals
- Corporates and media outlets relocating high-value or at-risk staff
- Humanitarian and NGO actors extracting staff or civilians during crises
- Families, children, and vulnerable individuals requiring tailored care and discretion

Our operations include:

- Emergency evacuations by land, air, or sea
- Repatriation of foreign nationals
- Movement of individuals in hiding, conflict zones, or politically sensitive locations
- Integration of medical support and protective security as needed

Since our founding, we have successfully facilitated the movement of over 32,000 people out of harm's way.

How We Help:

1

Risk Identification & Scenario Mapping

We assess the likely risks, triggers, and scenarios that could require evacuation. Plans are tailored to political instability, conflict escalation, health emergencies, or environmental disaster.

2

Route Planning & Mobility Assessments

We analyse primary, secondary, and tertiary evacuation routes, including land, sea, and air options. Each plan considers border closures, roadblocks, local militia activity, airspace control, and transport availability.

3

Assembly Points & Safe Havens

We identify and coordinate secure muster points, safehouses, and fallback locations. We engage with in-country facilitators to ensure local support and oversight.

4

Movement Coordination

We plan transport solutions for individuals or groups, including armoured convoys, chartered aircraft, or low-profile extraction options. We integrate medical evacuation (MEDEVAC) capabilities and trauma-trained security personnel as needed.

5

Communication Protocols

Plans include emergency communication systems, check-in procedures, and satellite-based tracking. Clients are supported by our 24/7 Operations Centre, which oversees evacuations in real time.

6

Contingency & Continuity Planning

We develop contingency layers in case the initial plan is compromised. Plans are revisited regularly to remain aligned with changing geopolitical realities and client presence on the ground.

Training

Preparing People to Operate Safely in High-Risk Environments

At SEPAR International, we believe well-trained people are key to reducing risk. Our training blends real-world experience with theory, simulation, and trauma-informed methods to prepare individuals and teams for complex, unpredictable environments. We deliver tailored, in-person programmes worldwide across sectors including media, corporate, humanitarian, government, and private clients.

Hostile Environment Awareness Training (HEAT) & Hostile Environment First Aid Training (HEFAT)

Immersive, scenario-based training for those operating in hostile or remote settings. Courses cover:

- Situational awareness & personal security
- Crisis response & conflict management
- Field trauma care & remote first aid
- Digital security & data protection
- Cultural sensitivity & gender awareness
- Psychosocial resilience & ethical engagement

Delivered by experienced instructors using a trauma-informed, “Do No Harm” approach.

First Aid & Mental Health First Aid (MHFA)

Accredited training delivered in the UK and internationally, aligned with OFQUAL/RQF and HSE standards. Programmes include:

- Basic life-saving skills (BLS)
- Emergency first aid at work (EFAW)
- Advanced trauma response and remote first aid

- Mental Health First Aid (to support psychological resilience)

Available as open enrolment, in-house team training (up to 12 people) or tailored to your environment.

Fire Safety Training

Practical fire prevention and emergency response training for high-risk settings. Modules include:

- Fire hazard identification
- Use of fire extinguishers
- Evacuation planning and drills
- Risk management for hazardous materials

Often combined with First Aid for comprehensive emergency preparedness.

Advanced Defensive Driver Training

RoSPA-certified training for personnel operating in high-risk or sensitive environments.

Participants learn:

- Situational awareness and journey security
- Navigation, convoy protocols, and route planning

- Vehicle search techniques and checkpoint protocol
- Anti-hijack, evasive driving, and emergency manoeuvres
- Vehicle maintenance and resilience planning

Training is scenario-based and often tailored to the local environment and risk profile.

Women’s Personal Safety & Self-Defence Training

Designed by women, for women, this course empowers participants with the skills and awareness to manage personal risk confidently. Training includes:

- Situational and cultural awareness
- Gender-based risk indicators and predator behaviour
- Conflict de-escalation and legal considerations
- Self-defence techniques for various environments
- Journey planning and lone worker strategies

Ideal for women working or travelling in uncertain environments.

Psychosocial Care & Resilience Training

Support your team’s mental wellbeing in high-pressure contexts. Led by psychologists and trauma specialists, this training helps participants:

- Understand and manage stress and trauma
- Build personal and organisational resilience
- Provide peer-level psychological support
- Engage ethically and compassionately with affected populations

SEPAR International training is delivered on-site or at secure locations worldwide, tailored to your context, culture, and risk profile for practical, inclusive, and mission-relevant learning.

Cybersecurity

Securing Digital Frontlines in High-Risk Environments

In today’s connected world, cyber threats pose critical risks to people, organisations, and reputations. SEPAR International delivers end-to-end cybersecurity services tailored for high-risk, high-value environments, combining compliance, consultancy, technical testing, and human risk management.

Certification & Framework Implementation

ISO 27001: Full support from gap analysis to audit readiness, building robust, lasting ISMS frameworks.

NIST CSF: Maturity roadmaps based on Identify, Protect, Detect, Respond, Recover—focused on threat detection, incident response, and policy optimisation.

Cyber Essentials/Plus: Tailored assessments, technical fixes, and audit prep for key control areas including firewalls, malware protection, secure config and more.

Technical Security Testing & Monitoring

Penetration Testing: Real-world attack simulations by ethical hackers, with risk-prioritised reporting.

Network Architecture Review: Analysis of infrastructure and controls to identify weaknesses and optimise resilience.

Cloud Security Posture Management: Hardening cloud environments with a focus on access control, data protection, and monitoring.

Continuous Monitoring: Custom threat detection systems and actionable reporting to stay ahead of emerging threats.

Cyber Resilience Planning Incident Response & Continuity: Organisation-wide response plans, scenario-based exercises, and operational recovery strategies.

Disaster Recovery: Practical strategies to restore critical systems following cyberattacks, outages, or natural disasters.

Governance, Risk & Compliance Policy Development: Clear, compliant cybersecurity policies aligned with industry and regulatory standards.

vcISO: Executive-level cyber leadership, strategic guidance, compliance, and board-level reporting without the full-time cost.

Human Risk & Cyber Awareness Human Risk: Role-specific awareness training, insider threat assessments and risk mitigation strategies.

Cyber Awareness Programmes: From phishing simulations to secure data handling our hands-on workshops.

SEPAR International’s cybersecurity services are tailored, discreet, and battle-tested. Whether preparing for certification, defending against intrusion, or empowering your workforce, we offer complete digital protection designed for today’s dynamic threat landscape.

Our Operating Model

From Intelligence to Impact

At SEPAR International, we provide holistic, end-to-end solutions designed to reduce risk and enhance safety in high-risk and fragile environments. Built on over 35 years of operational experience, our model is proven, adaptable, and centred on delivering results with precision and care.

Our approach is based on four core pillars:

SEPAR's operating model is not theoretical, it's lived, tested, and trusted. It's what enables us to protect what matters most, where it matters most.

Our Values

The Principles That Guide Us

At SEPAR International, our values are more than words. They are embedded in how we operate, how we treat people, and how we deliver. They guide us in complex situations, help us build lasting partnerships, and ensure we never lose sight of what matters most.

- Agile**

We move fast in a fast-moving world. Our flexible, proactive approach means we're ready to respond effectively - on your terms.
- Innovative**

We challenge assumptions and push boundaries. Driven by curiosity, we find creative, practical solutions to complex challenges. Our global outlook helps us adapt fast and deliver where others don't.
- Discreet**

Trust is vital. We work with humility and discretion, letting our actions and results speak for themselves.
- Human**

People come first. We act with empathy, care, and respect, whether supporting clients or helping communities.
- Collaborative**

We build strong partnerships based on trust and integrity. Through open communication and shared goals, we deliver smarter, lasting solutions.
- Respectful**

We value diversity and cultural awareness. By listening first and acting with care, we build trust and deliver solutions that fit each unique context.

“I cannot recommend SEPAR and the professionalism of its teams highly enough. Our mandate in terms of designing and implementing complex safety support strategies for multiple partners - all with varying degrees of experience, competencies, and resources - has been made infinitely smoother with the assistance and expertise of SEPAR and its flexible, high quality approach to ensuring safety is prioritised at every level of the news industry.” - NGO Client.

Accreditations & Commitments

At SEPAR International, we are committed to delivering services that reflect the highest levels of professionalism, ethical conduct, data security, and environmental responsibility. Our accreditations and affiliations reinforce our dedication to global best practices and sustainable operations across every project.

ISO 27001 – Information Security Management

SEPAR International aligns its internal systems and client consultancy services with the ISO 27001 standard to protect sensitive data and ensure digital resilience. We help organisations design and implement robust information security frameworks - supporting compliance, risk management, and operational continuity.

ISO 9001 – Quality Management Systems

Our operations are structured around the principles of ISO 9001, ensuring that every service we deliver, whether security, training, logistics, or advisory, is consistently high in quality, client-focused, and continuously improved

Cyber Essentials – Cybersecurity Certification

We are certified under the UK Government's Cyber Essentials scheme, which demonstrates our proactive approach to protecting against common cyber threats. This certification reflects our commitment to cybersecurity hygiene, safeguarding our digital infrastructure, and maintaining the trust of our clients and partners.

Highfield Approved Training Centre

SEPAR International's status as a Highfield Approved Centre reflects our commitment to excellence in training and compliance. This accreditation demonstrates our ability to meet rigorous quality standards and deliver industry-recognised programmes that enhance the skills, knowledge, and operational effectiveness of both our personnel and our clients.

ICoCA – International Code of Conduct Association

As a committed supporter of ICoCA, we are aligned with international human rights principles and operate under the highest standards of accountability, oversight, and transparency in the private security sector.

Carbon Neutral Britain – Environmental Commitment

SEPAR International is proud to be certified by Carbon Neutral Britain, actively reducing and offsetting our carbon emissions through verified climate initiatives. This commitment reflects our responsibility to the environments and communities we operate within.
