

# TERROR BARRIER

with Amanda McRae

## Break Free from Terror

During this Keynote address, Amanda will take your audience on an entertaining journey into the depths of the mind, to uncover the success that already exists in each and every one of us. Einstein once said "We cannot solve problems using the same mindset we used to create them", and yet we continue to hit the same barriers, time and time again, seemingly, without any progress. Why is this? Well, to start with, we rarely actually THINK! We have confused 'Mental Activity' with 'Thinking' and this is why change seems so difficult.

A mind that is 'THINKING' will find solutions to any problem. A mind that is on auto-pilot, will HALT at the first obstacle. A business that invests in the development of innovative "Thinkers" can **only be successful**. A business that doesn't invest in developing 'Thinkers' will employ worker drones that can't innovate.

### From Amanda's Keynote You Will:

- Uncover what is really sabotaging your success
- Understand what the Terror Barrier is and how to trample it
- Learn how to disrupt behaviour patterns
- Build confidence in your successes
