SOUND SCIENCE FOR BETTER SEX

## WANT MORE OUT OF SEX? WE HEAR YOU.

When it comes to overall physical and emotional wellbeing, satisfying sex is key at any age. But while the focus has been on male sexual issues, female sexual dysfunction and dissatisfaction is a thing too. Now, finally, there's something that women can do about it.

## CLIOVANA CAN HELP

Everything you want, and nothing you don't. **Cliovana is 100% non-invasive**, with zero downtime. Cliovana was developed specifically with the clitoris in mind. Why is this important? Because it has the unique distinction of being the only organ in the body dedicated solely to pleasure, yet its importance has been historically overlooked. Enter Cliovana, a simple, non-invasive way to increase arousal levels, and orgasm frequency and intensity. There are no lasers, scalpels, or needles, which means no side effects and no down time.

Cliovana is soundwave treatment that increases clitoral responsiveness leading to:

- Increased Arousal and Lubrication
- Increased Orgasm Intensity and Frequency
- Greater Overall Sexual Satisfaction

## EVERYTHING YOU WANT. NONE OF WHAT YOU DON'T.

NO  
PROBES

NO  
BURNING

NO  
NEEDLES

NO  
LASERS

NO

NO  
FREEZING

## BETTER SEX = BETTER EVERYTHING

Recent global studies have linked women's sexual health with their overall well-being. Turns out, a happy sex life affects everything from mental health, to relationship health, to health-health. So what are you waiting for?

## **50% OF THE POPULATION. 30% OF THE ORGASMS.**

There's a giant gap between what women want from sex, and what they get. In fact, recent studies show 60% of women aren't satisfied with their sex lives, and that during male-female sexual encounters, while 75% of men orgasm every time, only 33% of women do. It's time to close the gap, and Clivana can help.

## **WHO IS THIS FOR? EVERY WOMAN, THAT'S WHO.**

There are many reasons why a woman might experience lessened feelings of arousal and sexual response. The great news is that Clivana can help improve women's sexual health and help them have stronger, more frequent orgasms.
