Keeping your vehicle in top **Petrol is not getting cheaper**. Every time you stop at the bowser, you feel it.

The **Outlander PHEV** runs on **electric** for the daily school run, the M2 commute, the weekend shop, and **switches to petrol** only when the distance calls for it.

For most Penno drivers, that means the **weekly fuel stop becomes the occasional one**. **Practical, capable**, and stock is moving fast at **Alto Mitsubishi Pennant Hills**.

Book your test drive this weekend - one taste and there's no turning back!
