

# Valleyview & Districts Agricultural Society

# Greenview Regional AgriPlex

## Growing together ~ Connecting community

The Valleyview & Districts Agricultural Society has been a cornerstone of the community since its incorporation on December 11, 1967. For decades, we have worked to promote agriculture, foster community engagement, and support youth education through a range of programs and events. Our efforts are focused on strengthening agriculture and building lasting relationships that benefit the entire region. We strive to be connected with our community, by being a dynamic hub where tradition meets change.

The Valleyview & Districts Agricultural Society is excited to bring our vision of the Greenview Regional AgriPlex to life with donations, sponsorship and grants. Please join us in making this a reality. This facility will serve as a hub for our community and beyond, hosting a wide range of events, competitions, and educational opportunities for all ages from youth to senior.

The Ag Society has made great progress, but we are still seeking additional sponsorships to help raise the remaining funds needed to complete the new AgriPlex.

Your support will play a key role in making this vital community space a reality!
