

To the Sugar City Town Council,

I received a bill for mowing and clean up in the dollar amount of \$225.00. However, I was not notified, nor did I approve for this service to take place. I have someone that mows for me on a timely basis. When he went to attend my lots, he notified me that some mowing was done but no cleanup had taken place.

To my knowledge the city can only bill me for services if I receive a certified notice and have a 10–30-day response period. This did not occur. As there was no notice of the necessity of this service, nor prior acknowledgement from the owner of the property to allow this, I will not be satisfying this bill.

Had I been notified this was necessary and ignored the warning, I would understand receiving the service and the bill. But again, no notification was received.

In addition to the notice that I am disputing this bill as no warning or notification was given, I would like to receive a detailed explanation of the Sugar City bylaws that mandate bills can be issued without prior notice of services or issues.
