

# St Neots Town Youth F.C. - Blueprint for the Future

The local football future is bright and The Club is here to support any child who would like to be involved in the game.

## Our vision:

***“St Neots Town Youth F.C. to be a forward thinking football club that provides access to the game for local children regardless of ability. Our long term goal is for our members to enjoy being part of team and, as a result, continue playing long into adulthood, and so to realise all of the benefits an active lifestyle brings”***

## Our aim:

- To provide a safe environment to enable children to experience being part of a team and to fully enjoy playing the game of football.
- To create a “lifetime membership” for the community to be part of St Neots Town Youth Football Club.
- To meet the football needs of the community by supporting players of all abilities.
- To be a good community partner supporting educational and health requirements.
- To provide a high level of coaching and provide opportunities to allow local players to fulfil their footballing potential.
- To encourage our older players to be actively involved and to begin their coaching career with The Club.

## Why Sport for All?

All those that want to play football should have the opportunity to do so. All footballers of all abilities will be afforded the same benefits of being part of the club. A key measure of success will be the number of players that continue to participate in the sport into adulthood.

Every child should have the opportunity to play and if financial circumstances prevent this then The Club will provide support where required to enable the child to remain as part of team.

## Why Community Support?

We already offer support to a number of community initiatives and we will continue to look at ways that we can expand this aspect of the club. We consider it essential to be a good and positive community member.
