

EPIC AKASHIC: Rise to Record Heights

Consciousness Elevation for Awakening Women

You're a woman who's committed to your Alignment and living your Soul's highest path.

You always seek the next level of your growth, from the inside out.

You're an entrepreneur, healer, leader, teacher, impact-maker in your community.

The process of awakening to your Greatest Self and ascending to live fully aligned with your Soul is not easy. It involves healing, shedding, releasing, learning, integrating and deep transformation.

You cannot stay the same.

And no one can do this process for you.

The good news is... you don't have to go it alone.

This *Epic Akashic* group includes building a foundation of spiritual alignment and then upping that game by attuning you to the frequency of the Akashic Records. Through this combination, you'll learn the logical concepts for your rational mind to understand what it is to work in the Records. **This will accelerate your consciousness expansion and open up your Higher abilities at a quicker rate.**

The Akashic Records are an 8th Dimensional energy. It is the dimension that reflects and aligns with the 1st Dimension of pure Source energy. As a woman with your unique role in the world, you are predisposed to this Higher work. And if you're reading this now, **your Soul has set up this opportunity as a potential gateway to step into this higher level of You and your life's missions at this time... when we really need you at max capacity!**

Greater turbulence is afoot on planet Earth in the months and years ahead. This fall is projected to be particularly intense, as there is a cleansing and purification process underway. Things are moving faster, getting bigger and louder. **The intention of this group is to navigate these changes together from an elevated state, with integrity and in a safe space, while equipping you to heal and evolve more rapidly so you can better serve those in your sphere of impact.**

What attuning to the Akashic Records will do is:

- **Accelerate your ascension** into living even higher aspects of your True Self
- **Advance your personal healing and raise your frequency**, so you can have a greater impact just through your presence with people
- **Understand how to attract resources to achieve your Soul Goals**, while making you more magnetic
- **Help you “channel” with intention**, which can be focused on clients, building your business, designing programs, writing, creative projects, and much more
- **Neurologically, balance your brain hemispheres** to be more effective in your daily life and more consistently in Alignment
- **Open your third eye** (activate the pineal gland) to amplify your intuition
- **Make you more youthful, vibrant, attractive, and healthy** by revitalizing cells with potent “light energy”
- **Up-level your confidence, self-authority and innate joy**
- **Help you cultivate a very conscious relationship with your Spiritual Guides** so they can better assist your Earthly success
- **Elevate your prayer-power** to more directly impact world events (literally)

- **If you're a mother, access higher wisdom to help you guide your children** into their Souls' highest expression and greatest life success, and connect with them vibrationally at deeper levels

What's included in this program:

- **You'll receive the full *Lead in Alignment* online course** to set you up with foundational concepts and scientific knowledge to support your Akashic understanding and integration. With this you get additional monthly calls and access to a private Facebook group. This is a prerequisite to *Epic Akashic*, but you can do them simultaneously. (This is a mega-bonus! You'll love it.)
- **A comprehensive introduction to Akashic work** and the myriad ways you can use this remarkable "tool"
- **Learn what to expect with this frequency-raising process**
- **Receive your own prayer to access the Akashic Records**
- **Experience the Akashic Attunement process** within the amplified field of a powerful group consciousness
- **Enjoy the magic of bonding with women** who are Soul family for you
- **Learn basic skills for working in the Records**
- **Understand ethics of working with the Records**
- **Develop foundational practices for elevated spiritual Self care**, such as working with Chakras, energy bodies and simple clearing techniques
- **Learn how your "clair" system works**—clairvoyance, clairaudience, clairsentience, and claircognizance—and grow this superpower!
- **A simple Epic Akashic manual to guide you**
- **Recordings of all sessions** to return to the magic and enhance your up-leveling
- **A private WhatsApp group line** for ongoing support throughout our time together

We will set a strong foundation for deeper work you may choose to pursue in the Records, such as:

- **Invoking "downloads" and activating "Light Codes"** in your field so you get the insights, ideas, and intuitive guidance to easily move you along your life path into the manifestations your Soul is calling for. This is key to being a productive channel for creative projects and business building, etc.
- **Developing skills for physical body/energy healing**
- **Working with spiritual technology** to more consciously co-create with the Higher Realms for what you're manifesting in your life. This helps clarify your direction, make important decisions and discern what it's time for, so you don't get stuck spinning your wheels or pushing something based on Earthly "shoulds".
- **Practicing specific processes:** Higher Self Therapy, Activating Soul Agreements to call in your people and opportunities, Cord cutting to release invisible blocks, Influencing timelines, Remote viewing, Astral travel... and more.

My Darling, you're ascending. It's already happening.... If you feel called to be in deep support with other women, accelerate and smooth out your process, and relax into a well-held container of strong mentorship as you step into the next level, then this will be an exceptional experience for you. And **ultimately, you will create greater impact in the world by truly molding it from the inside out... and knowing exactly how to do that.**

What other women have experienced:

"The Akashic Records Attunement felt like I was being guided to experience this wonderful raising of energies both for myself and to be of service to others.

*Jennifer herself is a Master in the Akashic Records and responds to each persons' unique experience within the Records by encouraging our own unique way of interpreting the Records, and helps each of us find the way that feels right to us. There is no wrong way, no one is "doing it wrong", there is only love and acceptance and great reverence for all involved. **The information that has come through the Akashic Records has been profound, immensely loving and extremely useful to me and to others. It is a deeply nourishing experience, one that I will continue to access for the rest of my life.***
