

LEGAL PATERNITY TESTING

Paternity testing determines whether a man (alleged father) is the biological father of a child. When establishing legal paternity the results can be used for various reasons such as child support, child custody, adoption, grandparentage, siblingship, and more.

NON-LEGAL PATERNITY

Ease worry by establishing paternity. A non-legal paternity test also known as a peace-of-mind paternity test works just like a legal paternity test with the exception of court-admissible documentation.

TESTING OPTIONS

- Buccal Swab
- Blood Sample

- ✓ Results in 3–5 business days
- ✓ Establish paternity and ease worry
- ✓ Court & DCSE approved

Starting at

\$300
