

FACILITIES MANAGEMENT

## Company Profile

---

# ABOUT US

H Square has a professional and systematic program, we are providing integrated facilities management services. Through experience and innovation, we value your assets. If you look at maintenance and management of your assets, you can see that a value depends on how you manage your facilities such as reduction of maintenance cost by life cycle cost analysis, and PPM.

H Square fulfills its role as a facilities service provider to ensure safety, cleanliness, extension of the life of your assets and creation of added value for your property. The need for our clients required effectively by adopting innovative and customized service models and advance technology.

We at H Square looking forward to develop a successful long-term partnership with our clients to ensure their vision and mission are given light

# MISSION

Our Mission is to be recognized as the market leading integrated facilities management company by creating real and tangible value for our customers whilst delivering a first class, flexible and responsive facilities management services through the use of best technical practice in the market.

We strive to deliver and maintain safe working atmospheres that promote proficiency and business success and continuity with the minimum risk and in the most cost-effective way

## VISION

**Continually improve and ensure customer satisfaction**

## VALUE

**Business Ethics, Honesty, Trust, Integrity, Accountability**

# CEO MESSAGE

*Welcome to H Square*

*We established H Square Facilities Management based on “Effectiveness”, and from the beginning this vision was applied, our mission is to be committed to professional and ethical responsibility, in order to help a better tomorrow for the next generations, so that we would affect its history of facilities industry and would therefore be a source of pride in the minds of future generations.*

*We are committed to full implementation of local and international standards, establishment of green industry and incorporating innovation and technology to contribute to the growth of the power and facilities industry.*

*H Square Facilities Management is a dynamic company with a constantly evolving business model. Leveraging synergies enables the delivery of world-class services, across our customer’s operations. It is this strength that gives us the courage to overwhelm the competition and achieve greater glory in the ever-changing challenging business environment.*
