Customize a shed to your liking

Our standard features on each storage shed are a great start, but we know that it's the special touches that make your shed just right for you. With that in mind, we offer a long list of optional features that you can add to have your shed built exactly the way you want it.

Optional Features

- Concrete footings
- Additional wall height (7'4" or 8'4")
- 60" double doors with heavy duty ramp
- Extra single door
- Steel entry doors
- Dutch doors
- Bead board door w/black iron hardware
- Extra windows added
- Larger custom ramps
- Increase pitch on roof
- Finished loft (for extra storage in Loft & Gambrel style sheds only)
- Shelving
- Workbench
- Overhangs & Porches
- Window Boxes
- Roof Gables
- Cupolas

Optional Services

- Floor cut outs for pool filters, pumps, etc.
- Staining of our sheds
- Demolition and removal of old sheds

12x14	\$4321	
12x16	\$4939	

NOTE:

All shed dimensions are approximate — door and window locations cannot be changed unless otherwise noted.

Some city/town building codes may require customers to purchase an Anchor Kit and/or 2" x 6" pressure treated (12" or 16" on center) floor joist option/upgrade in order to meet city/town specific requirements/codes.

Although Yankee Shed builds one of the highest quality shed products available, some city/towns have very stringent building codes and Yankee Shed cannot guarantee that all of our sheds will meet these codes. Any additional cost necessary to meet code requirements will be at customer's cost.

Yankee Shed reserves the right to substitute materials with the understanding that any substitutions will be of comparable quality and appearance to that being specified.
