

SOIL TESTING

Twin Oaks Nursery in conjunction with Texas A & M will conduct Soil Testing this spring. The analysis will show the results of 9 tests: PH, Nitrogen, Phosphorus, Potassium, Sulfur, Sodium, Calcium, Magnesium, and Conductivity - (*The total amount of dissolved salts*).

- #1) Visit us - Pick up your soil testing packet at Twin Oaks Nursery**
- #2) Take 3-4 soil samples from different areas of the same zone (example front yard Or Back yard). Then take the samples from the same zone area and mix Thoroughly in a clean container. Place ½ cup in the sample bag.**
- #3) Bring your soil samples & information sheet into Twin Oaks by January 31st**
 - * Make sure your Name & Phone # are on the Soil Bag**
 - * Make sure you have filled out the soil sample info sheet.**
- #4) *The fee is \$10.00 per sample which includes:***
 - * We will send the Soil Samples into the A & M Lab for you.**
 - * We will contact you when the results are in.**
 - * We will read the results for you, and give you a print out as to what, if anything is recommend for your soil such as: Fertilizers or Amendments**
