[snodipity@aol.com](mailto:snodipity@aol.com)

Pastries,  
Coffee and  
Box lunches  
will be  
provided by  
the Cassidy's.

## Pumi Color Genetics

Chris will discuss information on color genetics to give us a better understanding of what genes determine the different colors.

## Chris Levy Bio:

Chris has imported 13 Pumik plus frozen semen from different lines and different European countries in order to establish their breeding program. They traveled to Hungary many times to get dogs, talk with breeders, and attend seminars on the Pumi, including a week-long Herding Camp in 2013 that taught the Hungarian style of herding, along with classes on Hungarian history and culture. One of their dogs passed the FCI working (herding) certification there. Their dogs won World Winner titles in 2001, 2005, 2006, 2007, 2009 and 2014 in addition to European Winner titles and championships in many European countries.

Chris is a Silver level Breeder of Merit and has bred and/or owned 36 AKC champion Pumik, 10 grand champions, 17 agility titlists including a member of the World Team, 6 MACHs, and many others with titles in herding, coursing, obedience and other sports. They have bred and/or owned 10 National Specialty Best of Breed winners and their dogs are consistently in the top 10 placings in the breed rankings every year.

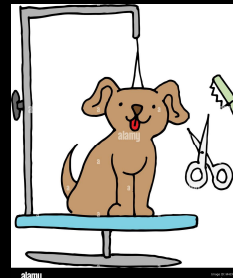

Chris was President of the Hungarian Pumi Club of America from its beginning in 2005 until 2018, then Vice President, then Secretary. She is now Pumifest Chair, Judges Education Chair, and Webmaster. She developed and coordinated the approval of the AKC Pumi standard.
