

## Press Release

### Introduction

The Veterans Ministry, Lakepoint Community Church annual veterans dinner honoring our veterans will take place on November 10 at the Lakepoint Community Church in Oxford, beginning at 4 PM. This year we again have a great meal for you, but we also have some very exciting news. We are announcing that we are joining forces with Downriver for Veterans. This new relationship will focus on the development of a planned veteran's community that when completed will provide 24/7 care for disabled veterans as well as a transformative support process that will provide both temporary and semi-permanent living arrangements along with all the necessary support services to insure that all veterans within this community receive all of the benefits that they have earned, education and job training assistance, access to quality healthcare, mental health support and perhaps most importantly the support of a community entirely made up by veterans. This community will create a world where every veteran has the support they need to thrive. These efforts will result in the creation of the very first Michigan Veterans Resource Community.

Our goal is to create the gold standard that every state should follow to support our veterans.

A partial list of attendees include Michigan Veterans Homes, Tim Kirchmer President SportsWorld, local and regional television and media outlets.
