Hemorrhaging  
Hemorrhoidectomy  
Intestinal Perforation  
Lupus  
Pregnancy  
Rectal Surgery  
Renal Insufficiencies  
Taking Meds that may weaken intestinal walls

HAPPY COLON!

If you are taking Rx diagnosed for ANY condition by your Physician, you MUST check to ensure the medication will not be interfered with by additional water intake and absorption.  
ALSO, if you have Hemorrhoids, you will need to sign a waiver during your visit. Possible bleeding from tissue can occur.

For Cancer patients on chemo or in remission--please call me before we can schedule a Colonic.

Hope this helps. If you have any more questions, please contact me anytime!

*"Your Gut is your 2<sup>nd</sup> Brain and 40 - 70% of your Immune System is in the Colon"*

Best!

Roxy C Clemence
