

# SOUTHERN UTE INDIAN TRIBE SU180 CEDAR POINT ROAD IMPROVEMENT PROJECT

LA PLATA COUNTY, SOUTHERN UTE INDIAN RESERVATION, STATE OF COLORADO

## General Notes:

All materials and workmanship shall be in accordance with the construction specifications. CDOT Standard Specifications for Road and Bridge Construction shall be the governing specification for this project.

The contractor is responsible for obtaining all required permits prior to the commencement of any work on the project.

The contractor shall be responsible for notifying the owner of any problems in conforming to the approved plans for any element of the proposed improvements prior to its construction.

The owner shall be responsible during construction activities to resolve construction problems due to changed conditions or design errors encountered by the contractor during the progress of any portion of the proposed work. If, in the opinion of the construction observer, the modifications proposed by the contractor to the approved plans involve significant changes to the character of the work or to future contiguous public or private improvements, the contractor shall be responsible for submitting revised plans to the appropriate agencies for approval prior to any further construction related to that portion of the work. Any improvements constructed not in accordance with the approved plans or the approved revised plans, shall be removed and the improvements shall be reconstructed according to the approved plans.

The contractor shall contact the appropriate agencies for location of underground gas, electric, and telephone utilities at least 48 hours prior to commencement of construction.

The contractor shall be responsible for providing a copy of "RECORD DRAWING" plans to the appropriate agencies prior to final acceptance of work.

The contractor shall notify the construction observer at least 24 hours prior to desired inspection.

The contractor shall reset all Survey Monuments disturbed during construction within 60 days of project completion.

The contractor shall be solely and completely responsible for conditions at and adjacent to the job site, including safety of all persons and property during performance of the work. This requirement shall apply continuously and not be limited to normal working hours.

Field conditions may exist that require changes to the drawings. If such conditions are encountered, standard engineering practices shall be followed.

Contractor shall survey the centerline for elevation prior to construction to verify existing elevations can be re-established.

Contractor shall provide temporary traffic control plans in accordance with the latest version of the MUTCD. Contractor shall submit to Owner for approval prior to implementation.

Contractor shall keep access to all homes during construction, brief closures are allowed and it is the contractor's responsibility to work with and notify homeowners.

Contractor shall coordinate with Tribe on all salvageable material for location. Tribe shall own all materials, including asphalt millings.

Contractor shall stay within R.O.W. on all roads.

Southern Ute Indian Tribe shall maintain ownership of any salvageable material, hauled off material and milling material. Contractor shall coordinate with Tribe on location for these materials.

Contractor's work shall stay within Right-of-Way of existing Roadway network at all times.

## Grading and Drainage Notes:

A water truck, if called for by the construction observer or owner, will be provided to keep wind erosion in check.

Any settlement or soil accumulations beyond the property limits due to grading or erosion shall be repaired immediately by the contractor.

Any construction debris or mud tracking in the public right-of-way shall be removed immediately by the contractor. The contractor shall immediately fix any excavations or excessive pavement failures caused by the development and shall properly barricade the site until construction is complete. Failure by the contractor to correct any of the above within 48 hours of written notice by the inspecting agency shall cause the inspecting agency to issue a stop work order and/or do the work and make a claim against the letter of credit for any cost incurred by the agency.

Areas being disturbed by the grading shall be reseeded with native vegetation or as approved on the development plan.

VICINITY MAP  
N.T.S.

## Utility Notes:

The contractor shall have in his possession at all times one (1) signed copy of plans and specifications which have been approved by the owner.

The contractor shall inform the owner's representative 24 hours in advance when trench will be ready for compaction tests. The contractor shall obtain a geotechnical testing laboratory to perform all required tests.

The contractor shall relocate street signs temporarily during construction, then replace as required per owner's requirements, including t-lock base, metal post, mounting hardware, etc.

The contractor shall repair or replace any existing landscaping, in kind, that was removed or damaged during construction. The contractor shall guarantee said landscaping for one year (1) after the final acceptance of the construction.

The contractor shall repair or replace any public or private improvements in kind including but not limited to: residential services, water lines, sewer lines, storm drains, etc., that was removed or damaged during construction.

The contractor shall be responsible for protection of all existing asphalt, curb & gutter and sidewalk from construction equipment. Damaged asphalt, curb & gutter, and sidewalk shall be replaced by the contractor at his expense.
