

RxAir360

NEWSLETTER

Greetings RxAir360 Family,

We are working hard to provide you with the most updated information on where we are with the progression of our project.

SAVE THE DATE

Our 1st class will be March 17, 7 pm EST. Our presenter will be R. Steve Morris, Series 65, CEO and Managing Partner - Intervention Point LLC. (Strongsville Ohio)

RxAir360

clinical hyperbaric oxygen device

The Latest

The team has been working diligently to prepare for submission to FDA 10K. Things are moving along with the design phase of the project. The engineering team is moving through the calculation changes/additions to finalize so the design can be released to the weld shop engineers to sign off on the changes necessary to present to FDA 10K. Everything is moving according to our timeline, and they feel no significant issues with moving through this phase.

We are excited about our CARE (Children Are Really Everything) program as relationships are being established with past and present NFL Athletes who will contribute as donors of the RxAir360 chamber to hospitals with the understanding that children will get the benefits of the chamber free of charge.

Great News

As promised, RxAir360 will provide financial literacy classes to inform you how to handle your finances best as time is ticking and preparation is necessary to secure your future.

Please RSVP

rxairlegacy@interventionpoint.com

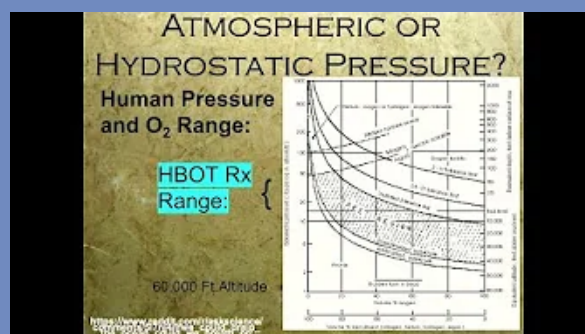

You may extend the invitation to family members.

Validation

Keep up with information about what hyperbaric oxygen therapy (HBOT) is doing for people worldwide. Here are some articles to help you understand why the RxAir360 family is setting the standard and pioneering bringing hyperbaric oxygen therapy to private practice physicians' examination rooms.
