

RxAir360

NEWSLETTER

Greetings RxAir360 Family,

We are pleased to report that we are still on track within the timeline guidelines. We hope to share updates as we continue our mission toward FDA approval.

We are excited to share the 2nd patent and how it will help in the world of Hyperbaric Oxygen Therapy. This will be shared via Zoom on Sunday, June 23rd at 7 PM EST

RxAir360

clinical hyperbaric oxygen device

Great News

Our corporate team, CEO Diallo Watts, CSO Tony Brown, CLO Richard Farmer, and Code Compliance and Safety Officer Keith Burch, traveled to Ontario, Canada, last month to visit the Wound Care Clinic, Hyperbaric Centre. The purpose of the trip was to spend time with a physician and hyperbaric technician to learn more about the safety, day-to-day operations, & facility set up (inside and outside). One of the highlights was hearing about the patients' before and after care experiences. Diallo and Tony experienced their personal "dive" in the traditional chamber. One of our Canadian Investors, Gursh Singh Sagoo, had the opportunity to spend time with the team.

Save The Date

Our financial literacy class was packed with information on Wealth Concepts to help guide and prepare you for protecting your future assets. If you missed it, a follow-up email with the session recording was sent. The second session on Knowing Your Options ("How to Invest Your Wealth") will be on June 9th, 7 PM EST.

Validation

We aim to keep you informed about the latest developments in Hyperbaric Oxygen Therapy (HBOT) and how it is benefiting people across the globe. Please take a moment to peruse the articles and videos we have provided to gain a better understanding of why we are thrilled to offer this product in private practice physicians' examination rooms.
