RxAir360, Inc.
Notes to Unaudited Financial Statements

As of and for the period ended June 30, 2026

NOTE 1 — ORGANIZATION AND NATURE OF OPERATIONS

RxAir360, Inc. (the "Company") is a Delaware corporation formed in 2022 to develop and commercialize a compact vertical monoplace hyperbaric oxygen therapy chamber for physician-office and outpatient clinical environments. The Company is in the pre-commercial stage and is focused on product engineering, regulatory preparation, capital formation and commercialization readiness.

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

These financial statements are management-prepared and unaudited and are presented on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. Cash and cash equivalents consist of demand deposits. The Company has not recognized commercial revenue from its core HBOT platform.

NOTE 3 — INTANGIBLE ASSETS AND NOTE PAYABLE — INVENTOR

The Company records its patent and intellectual-property rights at a contracted assignment value of \$3,000,000 pursuant to the October 1, 2022 IP Assignment and Reimbursement Agreement. The related inventor obligation is presented separately as a long-term liability. The Company has not commenced amortization of the recorded patent/IP asset.

NOTE 4 — SAFE NOTES PAYABLE

The Company has issued Simple Agreements for Future Equity (SAFEs) as part of its capital-formation activities. The Company presents the outstanding SAFE balance as a liability in these management-prepared statements.

NOTE 5 — PREPAID ACCOUNTING AND AUDIT FEES

At June 30, 2026, the Company recorded \$50,000.00 of prepaid accounting and audit fees as an other current asset.

RELATED-PARTY TRANSACTIONS

The founder has made contributions to support Company operations. The balance sheet separately presents the inventor reimbursement obligation. The "Due to Related Party - Founder" balance was \$0.00 at the 2025 year-end and 2026 interim reporting dates presented in the updated accounting records.

EQUITY STRUCTURE

The Company has financed operations through preferred-stock offerings, founder contributions and other equity transactions. Preferred stock is stated at \$0.00001 par value based on shares issued, and the excess of credited offering consideration over par value is presented as additional paid-in capital (APIC). Final preferred-offering controls are: Series Pre-Seed, 4,245,000 shares and \$424,500.00 consideration; Series A-1, 10,551,559 shares and \$1,055,155.82 consideration; and Series A, 6,306,497 shares and \$945,972.81 consideration. Dynamic Stock Transfer serves as transfer agent.

GOING CONCERN

The Company has incurred recurring losses, has not yet commenced commercial sales of its core product, and requires additional capital to execute its operating plan. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans include continued capital formation, completion of the FDA regulatory pathway, commercialization following required clearance, and development of additional financing sources. There can be no assurance that these plans will be successful.

COMMITMENTS AND CONTINGENCIES

Management is not aware of material legal proceedings requiring accrual in these management-prepared financial statements. The Company continues to incur costs related to regulatory testing, professional services, engineering and commercialization preparation.

SUBSEQUENT EVENTS

Management evaluated subsequent events through September 13, 2026, the date these replacement financial statements were prepared. Subsequent financing and operating activity is not reflected in the period-end balances unless it relates to conditions existing at the reporting date.

Management statement: These financial statements are unaudited and have not been audited or reviewed by an independent certified public accountant. No CPA assurance is expressed.
