COMPANY OVERVIEW

The Perry Consulting Group, LLC, a revenue cycle management consulting firm located in Dallas, Texas, has over 150 years of combined healthcare operations expertise, partnering with hospitals and physician groups to identify and resolve obstacles that hinder a healthy revenue cycle.

We focus on increasing revenue and stopping revenue leakage. By implementing process improvements and leveraging analytics to solve daily healthcare operational challenges.

" Bridging the gap between people, processes, systems."

SERVICES OFFERED

DEPARTMENT ASSESSMENT – We conduct a detailed operational assessment by benchmarking the predetermined department(s) performance and process KPIs. The evaluation consists of various methods to discover, analyze, and measure potential breakdowns. Lastly, we make recommendations for improvements.

PERFORMANCE AND PROCESS IMPROVEMENT PLAN – We partner with clients to resolve and close the identified performance, systems, and process gaps. Optimizing performance and processes to drive revenue, increase efficiency, reduce costs, increase profits, boost customer satisfaction, and optimize key performance indicators.

INTERIM OPERATIONS LEADERSHIP – Our qualified and talented, experienced revenue cycle subject matter expert leadership team drives top-performing KPIs and enhances performance.

Each senior consultant leader has over a decade of experience in revenue cycle and has experience on various A/R platforms: Epic, Meditech, Oracle Cerner, GE, Invision, ECW, etc. As well as have multiple certifications from Harvard Business School, ESSEC Business School, HFMA, AHIMA, and AAPC.

VIRTUAL CONSULTANT – We support various projects and initiatives, document workflows, update or write policies and procedures, or assist with day-to-day operational matters that require extensive research or additional support from a subject matter expert.

PROVIDER CREDENTIALING – Using CAQH solutions, we support provider credentialing, re-credentialing, and enrollment needs.

PROJECT MANAGER – We support Epic implementation's "Go-Live" lifecycle, optimization, stabilization, and initiatives. We complete all project management tasks.

MEDICAL CODING AUDIT – Our medical chart audit identifies inconsistent clinical coding practices that need improvement.

- We track each provider's accuracy compliance score over time for improvements.
- We provide group and one-on-one education to the providers or coders.
