We Drive Change!

We have the expertise needed to take your operation into the 21st century – The Time Is Now!

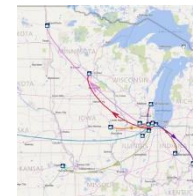

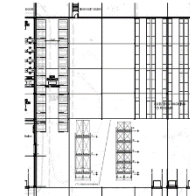

Supply-Chain Logistics and Strategy

- Negotiated \$57.5m annualized improvement in supplier logistics freight cost and distributor revenue
- Designed and built multiple inbound logistics departments driving new bottom-line income (Ranging from \$10m to \$15m per year)
- Developed cutting-edge technology to support inbound logistics (Drove \$5m to \$10m annual improvement)
- Developed intricate cross-dock and redistribution hub networks (Drove over \$10m to \$20m in annual net income across product categories)

Distribution

- Redesigned facility layouts to increase throughput in multiple locations (Generated from 15% to 47% improvement)
- Implemented organization and operation changes to maintain profitability for facilities during 20% to 60% reduction in sales volume
- Vast experience in employee Performance Management and MSD work standard implementation
- Improved employee absenteeism and safety behaviors through program revisions
- Operations and Logistics SME on several facility automation projects and assessments
- Experience in small, medium, and large warehouse and fleet operations

Leadership

- Implemented comprehensive communications and employee engagement programs
- Experience with numerous Union contract negotiations
- Built trust and improved labor relations reducing and almost eliminating grievances
- Provided unique consulting experience with small independent business owners (Increased overall unit sales by 10% to 20%)
- Supply-Chain SME in numerous and significant mergers and acquisitions
- Completed numerous technology and system integrations and development of custom applications for small to large businesses
