Bulletin Name: **Replacement Spindle Parts, Universal Kit**

Bulletin Number: **SVC-TSB-0115**

Revision: 01

Issue Date: 2/11/16

Author: Chris Sturtz

Date: 2/11/16

Reviewer: Chris Sturtz

Date: 2/11/16

Approver: Chris Sturtz

Date: 2/11/16

Subject: The four current spindle kits that are available with the spindle and necessary change-over parts (71460115, 95460016, 95460018 and 95460021) will no longer be available. They will be replaced with a single parts kit 95460028 and the spindles 71460134 and 71460136 will be ordered separately.

Units

Affected: The older units that are changing out an original version spindle, which is no longer available, and changing over to the current production version spindle. This does not affect walk behind units as the current 71460131 spindle is a direct swap for the old 71460039 spindle.

Situation: In order to simplify the replacement of older version spindles WMI is creating a single parts kit that works with all models to replace all early version spindles (71460007, 22, 26, 38, 57, and 92).

REPLACEMENT SPINDLE PARTS-UNIVERSAL KIT- 95460028		
PART #	DESC.	QTY.
11990090	BOLT, HEX, 1/4-20X1 P8	2
