MULE

ML150

MULE ML150

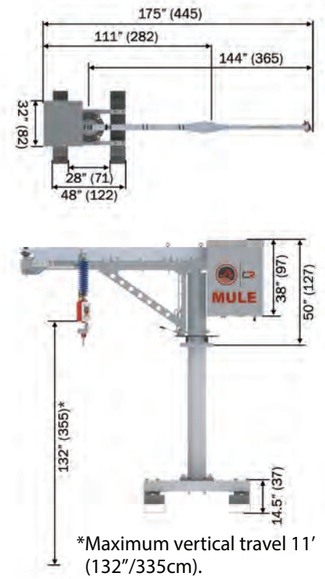
Designed for the challenges of onsite construction, the MULE is a flexible, portable, job-site ready lift assist that can handle up to 150 pounds.

PROVEN TO INCREASE PROFITS

"We added four MULEs to our team and for every two days with a MULE I pick up a day on our schedule. Our most recent project had 12" split face CMUs, what would have been a 22 day project was completed in 15 and we are seeing an overall savings between 30% and 50%.

Glenn Hottmann
Owner, G&G Enterprises

DIMENSIONS



*Maximum vertical travel 11' (132"/335cm).
*Extension Required if working area is greater than 11'.
*1,360 lbs as shown
