## Summary

A hardworking, conscientious professional with extensive experience across varied works packages, providing an excellent track record of results with both and my peers. A highly motivated person at home working in isolation or as part of a team who accepts responsibility and pressure in order to meet and surpass corporate goals and targets

An effective problem solver with a proactive focus and mentality, aligned with a wealth of experience and knowledge of many aspects of the renewable industry and I am seeking new challenges to progress my personal and professional development in the offshore industry.

## Key Achievements

- Worked across various renewable scopes in differing roles
- Zero loss time injuries on any site or project managed.
- Transition between roles on the offshore sites.

## Key Skills

- Methodical, yet adaptive problem solver.
- Excellent manager of personnel manager.
- Good oral and written communication skills.
- Good Health and Safety knowledge and practical application.

## Employment History

#### **References & endorsements**

##### **Stef Callis General Manager Cwind - [stef@dacksservices.co.uk](mailto:stef@dacksservices.co.uk)**

Having had the privilege to work alongside Dean on numerous Windfarm projects I would highly recommend him to anyone. His planning ability and situational awareness would make an asset in any team. Dean is a focused person who will give his all to achieve the project goal, quite often being the first on site and the last off. His focus, drive, personal pride and passion for his work make him ideal for the demanding offshore environment. I personally look forward to the opportunity to work with Dean again as he is happy to accept any responsibility given and often saves the day with a quality recommendation.
