MANAGED SOLAR CCTV TOWERS

Applications:

These fully managed towers are ideal for:

- Security Companies providing services to the construction sector
- Event Management controlling access to restricted areas, securing assets and monitoring movements
- Public Sector monitoring estates
- Fly tipping and waste control operations

Each of our towers benefits from a suite of digital services to maximise ease of use and remove the technical burden of managing remote, digital devices.

Digital Services:

- Unlimited Mobile Data¹
- Management Access via Software Defined Network
- Livestreaming via Web Browser
- Secure Email Relay for Alarm Notifications
- Connection Monitoring
- Battery Health Monitoring
- Timelapse footage
- ANPR and Facial Recognition
- **Optional**—Registration With Monitoring Services

¹Using Three Business and subject to fair usage policy

Pricing:

At MCS we recognise that every customer has a different commercial model. We offer a tariffed range of services to include basic delivery and commissioning through to fully monitored services including ANPR, Facial Recognition, Air Quality, and Noise pollution.
