

FUNLAND

2019 RIDER SAFETY GUIDE

welcome!

Since 1962 Funland has been providing safe, affordable, family fun. With 20 rides and 17 employee operated games, Funland is happy to offer many types of entertainment. Many of our rides are exciting and dynamic. Each attraction is designed to appeal to a multitude of guests. In the document that follows, we have included a description of each ride and outlined the height requirements and ride restrictions to help you choose which rides will be best suited for your party. Some rides may have restrictions for guests of exceptional size (height and/or weight). Please carefully review and consider all of the requirements and restrictions of our rides to determine if you or members of your party can safely participate. DO NOT RIDE if you have a condition or impairment that would not allow you to follow the safety protocol or utilize the seating or safety restraints. Guests with special needs should visit the main office at Funland for information on accessibility and other services.

The Rider Safety Guide provides information on each attraction at Funland. Please review the recommendations and restrictions of each ride. Rider Safety Guide is subject to change. Please visit the Funland office with any questions or for any update.

GENERAL INFORMATION

FUNLAND RIDER RESPONSIBILITY

There are inherent risks in the participation in or on any amusement ride, device or attraction. Riders, by participation, accept the risks inherent in such participation of which the ordinary prudent person is or should be aware.

Riders have a duty to exercise good judgement and act in a responsible manner while using the amusement ride, device or attraction. Guests must obey all oral and written warnings prior to or during participation.

Riders have a duty to not participate in or on any amusement ride, device or attraction when they are under the influence of drugs or alcohol. Riders have a duty to properly use all ride or device safety equipment provided.

MOBILE IMPAIRMENT POLICY

Only guests with mobile impairments (generally requiring a mobility assisted device) will be allowed access through the accessible entrance. *This accommodation is designed to provide access not to bypass lines.* Only guests with mobility impairment (or other special needs) and up to 2 riding companions will be allowed access to the accessibility entrance.

Accessibility

- 1) Visit the Funland office or floor manager for information and access.
- 2) Standard ticket values apply.

*Guests may be required to wait 1-2 cycles prior to boarding for the first ride.

*The qualifying guest must be riding for companions to ride.

*Guests may be required to ride in the designated row. If they wish to ride in a specific row, they will be provided a boarding time based on the current wait time. The same applies if guests wish to ride more than one time.

All of the rides at Funland will require the rider to transfer onto the ride from their wheelchair or mobility devices. Guests that require assistance to be lifted onto a ride will have to rely on a member of their party to provide such assistance. Funland personnel may not assist with lifting or transferring out of or into wheelchairs and mobile devices.

ATTRACTION SAFETY

Regulations and restrictions are in place to ensure a safe and enjoyable experience for every guest. Funland employees have the right to deny access to any rider based on safety considerations. Many amusement park attraction's safety systems are designed to accommodate people of average size and stature. Restrictions may be placed on riders if they are not able to safely experience a ride.

Ride Safety Guidelines

Before riding, please note all safety warnings and review the ride safety tips.

- Obey listed age, height, weight, and health restrictions.
- Observe all posted ride safety rules.
- Keep hands, arms, legs and feet inside the ride at all times.
- Remain seated in the ride until it comes to a complete stop and you are instructed to exit.
- Follow all verbal instructions given by ride operator or provided by recorded announcements.
- Always use safety equipment provided and never attempt to wriggle free of or loosen restraints or other safety devices.
- Parents with young children should make sure that their children can understand safe and appropriate ride behavior.
- Never force anyone, especially children, to ride attractions they don't wish to ride.
- If you see any unsafe behavior or condition on a ride, report it to a supervisor or manager immediately.
- No eating or drinking on the rides or ride platforms, especially while the ride is in motion.
- Remove/secure all loose articles.
- Do not ride if under the influence of alcohol and/or drugs.

ADDITIONAL INFORMATION

- 1) Prosthetics/Braces and Casts: Due to unique designs of each attraction, guests with braces or casts may have difficulty fitting properly into the ride restraints. If a rider cannot be properly restrained, they will not be permitted to ride. Most of our attractions allow guests to ride with prosthetic devices, as long as they are properly secured. This can vary depending on the location of prosthetic and the design of the ride restraint.
- 2) Emergency stoppage of rides, though rare, may happen. Rides may be stopped due to mechanical issues or adverse weather conditions. Guests may be required to walk down steep inclines or steps. Please take this into consideration before choosing to ride.
- 3) All safety restraints must be able to fit and work properly to accommodate each guest.
- 4) Loose articles are not permitted on rides and must be left with a non-rider or secured in the designated area. Loose articles or hand-held articles include, but are not limited to, cameras, hats, glasses, cell phones, stuffed animals, purses, backpacks, etc. Funland and its employees are not responsible for any lost, stolen, or broken items which include items that can fall out of pockets.

FUNLAND RIDERSHIP CRITERIA

The rider must:

- 1) Have control of torso, head, and neck and be able to maintain control for the duration on the ride.
- 2) Maintain proper riding position for the duration of the ride.
- 3) Have appropriate weight distribution to allow the safety restraints to function properly.
- 4) Have the ability to brace using his or her legs/arms and hands throughout the duration of the ride.
- 5) Have the ability to enter and exit without endangering themselves or other riders.
- 6) Maintain appropriate observed behavior and a willingness to understand ride requirements.

HEALTH CRITERIA

A description of each ride is listed below along with a complete list of ride restrictions and health restrictions pertaining to that specific ride. Use the following key to identify rides you may wish to avoid riding.

Heath Recommendation Key

It is recommended that guests with the following conditions refrain from riding the indicated attractions.

Description: This attraction is designed for children. The area consists of varying obstacles on different levels of the "jungle." Obstacles include slides, rope courses, and a cargo net. Shoes are not permitted. There is a restriction to the number of children permitted to enter at one time. Once the maximum number is achieved a queue will form outside.

Height Restrictions: Children must be between 42"-65" to enter.

Ride Restrictions:

-Shoes are not permitted

Health Recommendations:

ATTRACTIONS

bumper cars 5 tickets

Description: This is a bumper car ride. Riders may be jostled due to the nature of the ride. Guests need to transfer in and out of the cars. Each guest needs to be able to hold their head upright and have an appropriate center of gravity for bracing to maintain a seated position during a fast ride and be able to brace herself/himself for possible rapid deceleration.

Height Restrictions: 42 inch minimum height to ride. Riders must be at least 50 inches to be a driver.

Ride Restrictions:

-Shoes must be worn at all times
-No head on collisions
-One way traffic only

Health Recommendations:

gravitron 5 tickets

Description: This is a high intensity, high speed ride. As the gravitron gains speed, riders will stick to the wall and mats will slide upward on tracks. Riders must remain in a standing position and upright for the duration of the ride. There are no seats in this ride.

Height Restrictions: 42 inch minimum height

Ride Restrictions:

- Riders must stand upright.
- Keep your arms in front of you at all times.
- Riders cannot rise above the red mat.
- Do not allow arms, hands or legs to go between the mats.

ATTRACTIONS

(gravitron continued)

- All pocket items and/or loose article should be left with a non-rider.
- Listen to any instructions given by operator.

haunted mansion 6tickets

Description: This spooky ride takes riders on a tour through a haunted mansion. This ride moves at a moderate speed through dark and scary rooms. Some components of this ride include strobe lights and may be startling. Guests need to transfer in and out of the ride. Each guest needs to be able to hold their head upright and have an appropriate center of gravity for bracing.

Height Restrictions: Hand held infants are not permitted to ride. Ride is not recommended for toddlers.

Ride Restrictions:

- Rider must remain in their cars for the duration of the ride.
- No reaching for items outside of the cars.

Ride Access: Non-ambulatory guests should enter through the ride exit after receiving permission from the ride attendant. Please note that in case of an emergency, riders may be required to exit via stairs or a steep ramp.

Health Recommendations:

ATTRACTIONS

paratrooper 4tickets

Description: This is an upright rotating wheel that moves at moderate to fast speeds around a circular path. This ride goes both forward and backward. Guests need to transfer in and out of the ride. Each guest needs to be able to hold their head upright and have an appropriate center of gravity for bracing.

Height Restrictions: 36 inch minimum to ride. Riders 36"-42" must ride with a responsible party.

(sea dragon continued)

- No spitting or throwing of any items.
- Be sure to secure all loose articles.
- Riders of exceptional size may not be permitted to ride if the lap bar is unable to securely latch.

Ride Access: Non-ambulatory guests should enter through the ride exit after receiving permission from the ride attendant.

Health Recommendations:

simRider

6 tickets

Description: This virtual reality-like ride takes riders through the bumps and dips of the video course they are on. The video played in this ride varies, so the course varies as well. You can expect intense jolts, quick left to right movements, and abrupt stops. Seat belts are provided at each seat and are required to ride. Guests need to transfer in and out of the ride, which requires steps. Each guest needs to be able to hold their head upright and have an appropriate center of gravity for bracing to maintain a seated position during a fast moving ride and be able to brace herself/himself for possible rapid movements

Height Restrictions: 40 inch minimum height.

Ride Restrictions:

- Be sure to secure all loose items.
- Riders must remain in their seat for the duration of the ride.

Health Recommendations:

***Responsible Rider:** The accompanying person must meet all the attraction requirements, as well as assist the guest. This includes helping the guest in the loading and unloading of the attraction, assisting the guest in maintaining postural control while the attraction is in motion, and assisting the guest on and off of the ride.

****Hand-held Infant:** A hand-held infant is a child who is unable to walk to the attraction independently or maintain independent seated postural control.

ATTRACTIONS

superFlip360

6 tickets

Description: This high intensity ride takes riders on a fast upright circular path. The seats of the ride spin outwardly, while the whole car swings on a pendulum and will go upside down. Guests need to transfer in and out of the ride. Each guest needs to be able to hold their head upright and have an appropriate center of gravity for bracing to maintain a seated position during a fast moving ride, and be able to brace herself/himself for possible rapid movements. The rides restraint system will automatically engage.

Height Restrictions: 48 inch minimum to ride
76 inch maximum to ride

Ride Restrictions:

- Riders of exceptional size may not be permitted to ride if the restraint system is unable to engage.
- Be sure to secure all loose articles.

Ride Access: Non-ambulatory guests should enter through the ride exit after receiving permission from the ride attendant.

Health Recommendations:
