

9-Ball Rules

- Flip for the break – alternate break after that.
- The 1-ball must be on the head spot and 9-ball must be in the middle of the rack.
- Must contact the 1-ball first to be a legal break.
- 9-ball break – if the 9-ball is made on the break, it is NOT a win, **the 9-Ball is spotted and game continues with the breaker shooting.**
- On the first shot after the break, the shooter can call a push shot. There is NO foul on a push shot. The incoming shooter can either take the shot or push it back to the original shooter.
- A legal hit is made by contacting the lowest numbered ball on the table, then the cue ball or any other ball contacting a rail.
- No call pocket. **Short racks allowed.** Slop does count.
- You do not need to call the 9-Ball.
- Races are based on your skill level and should be indicated on your score sheet.
