

Special Technology Alert!

The TRG-Assist™ “Redundancy Solution” is Here

The Redundancy Group

As Security Professionals, we at The Redundancy Group (TRG) have watched as a massive migration has taken place in the Life-Safety/Security, and Data Communication Industries. These Industries are now utilizing Cellular, and Long-Range Radio Frequency (RF) for their primary mode of transmitting and receiving data. Cellular and RF do provide functionality, and can be “*Reliable Most Of The Time*”, but historical data confirms, Cellular and RF outages *do occur*.

The phrase “*Reliable Most Of The Time*” is what concerns us the most at The Redundancy Group. Especially when the *unexpected* occurs (Hurricanes, Forest Fires, Earthquakes, etc.), destroying critical communication infrastructure (Cellular or Radio Frequency Towers). Therefore, we firmly believe that a more *reliable 24/7* form of communication redundancy is an absolute necessity, and our TRG-Assist™ is the answer. Once normal communications are restored your “Communications Guardian”, (TRG-Assist) goes back into its standby mode until the next time, the *unexpected* occurs.

Our TRG-Assist, is a *highly reliable* SATCOM “Redundancy Solution” for your Communication needs. The TRG-Assist operates via our Provider’s State-Of-The-Art Low Earth Orbit (LEO) Global Satellite Network. Low Earth Orbit Satellites are nearly never affected by weather, unlike High Earth Orbit Satellite Networks.

Therefore, when all other forms of land-locked communications fail, the TRG-Assist seamlessly takes over. Allowing for Global HD Calling, Wi-Fi Connection, IP Data/Email reception, and Data Transmission when No Cellular, Radio Frequency, or Phone Lines are available.

One Key Element of the TRG-Assist is that it has the ability to be networked into Residential Estate’s Multi Line or PBX phone system. Thus allowing for the ability of every phone in the Estate to become a HD Quality SATCOM Phone during *unexpected emergencies*.

The TRG-Assist™ Can be Utilized Across Multiple Platforms

Private Estates

Islands

SuperYachts

General Aviation

Luxury Ranches

Motor Coaches

TRG-Assist™ Components

“Your Life-Safety Is Our Main Concern”
