

Web Development Camp Instructor

About the Role

We're seeking an energetic and skilled web development instructor to lead a one-week intensive camp teaching HTML, CSS, and JavaScript fundamentals to children ages 8-12. The ideal candidate will combine technical expertise with the ability to make coding engaging and accessible to young learners.

Key Responsibilities

- Deliver engaging lessons that introduce children 8 to 12 years of age to web development basics in an accelerated format
- Create and guide students through hands-on projects that demonstrate immediate visual results
- Aid in developing an engaging, age-appropriate curriculum
- Maintain high energy and enthusiasm throughout intensive camp sessions
- Ensure all students complete the camp with a basic understanding of web development fundamentals
- Create a learning environment that sparks interest in technology

Required Qualifications

- Strong proficiency in HTML, CSS, and JavaScript fundamentals
- Demonstrated experience teaching or mentoring children ages 8-12
- Ability to explain technical concepts in child-friendly terms
- Experience with rapid-learning environments or intensive teaching formats
- Strong classroom management skills

Preferred Qualifications

- Background in education or experience running technology camps
- Knowledge of kid-friendly coding platforms and tools
- Experience creating visual, project-based learning materials
- Understanding of different learning styles and abilities

Personal Qualities

- High energy level and ability to maintain student engagement
- Patient and adaptable teaching style

- Creative problem-solver who can think on their feet
- Passionate about technology education
- Excellent time management skills

Physical Requirements

- Ability to work three hours per day during the one-week camp period (multiple periods)
- Comfortable standing and moving around the classroom
- Ability to assist students with computer operations

Special Requirements

- Must be available for the full duration of the one-week camp
- Willing to participate in pre-camp preparation and planning sessions
- Able to handle the fast-paced nature of intensive learning programs

We're looking for someone who can make web development exciting and accessible while managing the unique challenges of teaching young children in an accelerated timeframe.
