**FRONT END DEVELOPER:**
Full time permanent, 100 % onsite, Monday to Friday in office from 9 to 5pm.

Location: Toronto, Keele St & Highway 7

We pride ourselves on a culture of creativity, collaboration, and a commitment to pushing the boundaries. If you're a highly motivated and skilled specialist passionate about the gaming industry, we want you to join our team.

We are currently seeking a talented Front-end developer to join our team and play a key role in designing and implementing user-facing features for our web applications. As a front-end developer, you will be responsible for contributing to the 'client-side' of our web applications. Your mission will be to maintain a user-friendly environment by writing code and moving forward with your team's innovations in web design and usability.

Main Responsibilities:
- Develop and maintain web applications using **JavaScript (ES6+), TypeScript.**
- Work closely with the team to implement front-end solutions using **React** (knowledge in other frameworks like Vue or Angular is a plus).
- Write clean, efficient, and maintainable code.
- Engage in functional programming practices to improve application performance and scalability.
- Design & implement responsive **UI components using CSS and modern tools like SASS or LESS**.
- Collaborate with backend developers to **integrate RESTful APIs.**
- Participate in project management activities, ensuring timely delivery of tasks.
- Conduct unit testing and end-to-end testing to ensure code quality and application stability.
- Continuously learn and apply new technologies and best practices.

**Requirements**
- Minimum 2 years of experience with **Javascript/Typescript**
- Proven experience  (min 2+ years) in developing large-scale applications
- Strong CSS and HTML skills
- Comfortable developing on Linux or OSX
- Experience with React and its ecosystem
- Experience in React Server-Side Rendering
- Experience with responsive web development
- Experience working with REST APIs
- Open mindset for learning and continuous improvement
- Strong problem-solving skills and excellent communication abilities

Preferred, **but not required:**
- Experience with Wordpress
- Experience with Mobile Development (React-Native, or Native)
- Experience in the gaming industry
- Prior experience in unit testing and end-to-end testing is desirable
- Familiarity with functional programming concepts
- Experience in C#
- Experience with Nodejs Vue or Angular knowledge is beneficial
- Experience in modern front-end packing tools like webpack, rollup

**Benefits**
**Why Join Us?**

- Exciting projects using cutting-edge technologies
- Collaborative and supportive work environment
- Competitive salary and bonuses
- Opportunities for career development, growth and advancement
- Fantastic company events
- Benefits including extended healthcare, dental care, vision care, and disability insurance
- On-site leisure facilities
