Sound that feels just right.

Our story

For over four decades ago, we started building powered speakers with a single ambition in mind; to give you the best sound quality at the best price possible.

Today, you will find Audio Pro in 45 countries on four continents. And the same ambition is still the cornerstone in everything we do.

Small powered speakers with big sound.

Sound always first

The secret behind the superb audio quality of Audio Pro is long, technical expertise coupled with research and development, which have led to innovative, patented technologies. The ACE-Bass technology plays a big part here, our way to magically get more and better bass from small speakers.

But the most important tool in setting the sound is our ears. We spend endless hours in our listening room to perfect the Audio Pro sound. And all of us test the prototypes at home as well. Pure performance in pure design.

Addon C-SUB

Small in size, mighty
in bass.

The wireless Addon C-SUB multiroom subwoofer is distinctively small, but delivers a massive punch that you really can feel. It's a perfect 23cm cube of heart-pounding, definitive bass enjoyment. Wireless auto connect to the nearest Audio Pro multiroom speaker, or play old school with cable. Easy to place, easy to love. More bass to your music, with less wire clutter.

A dark grey cylindrical speaker with a textured fabric mesh is positioned on a wooden shelf. To its left is a red wooden horse figurine with intricate patterns and a bell. To its right are two small knitted dolls, one of which is a red and white Santa Claus figure. The background shows a window with a snowy outdoor scene.

A10

Softly shaped multiroom.

A speaker with a modest footprint and rounded design, that makes a space savvy addition to the smaller room. The fabric front perfectly complements modern interior design trends with the choice of two shades of grey, allowing a complete color match for your home.

The speaker has an astonishing sound, despite its compact size.

Play together. Or not.

Play your favorite music on all
speakers at the same time.

Or let everyone in the house play
their music on their own speaker.

Your choice, you have all the music
in the world at your fingertips.

Drumfire D1

Elegance meets dynamic performance.

This speaker is the top unit of the Drumfire, that will give you quite a punch, even on its own. Delivering pure HiFi acoustics, with deep, controlled bass and crispy highs. D-1 is designed to fit elegantly into any home. Wrapped in faux leather, details in solid aluminum and a sturdy wooden cabinet.

Drumfire

The loudest playing multiroom speaker.

Sometimes nothing beats loud. Drumfire delivers a pure, bold sound with super crisp details. You will physically feel every little part of your music. But loud isn't everything, even listening at low levels, Drumfire will make your music come alive. This speaker will fill large rooms easily, and knock your socks off.

LINK-1

Perfectly connected.

The Link 1 unit is a clever little multiroom player. A simple way to connect any audio gear to the Audio Pro multiroom system. Connect to any powered speakers, radios, hifi-systems or AV receivers.

Makes you go wooop!

We design speakers that lets you enjoy your music. With our long experience in speaker development, our aim is that your music should be felt, not just heard. Your music matters to you, so it matters for us. We are just passionate about music. The time and effort we put into each and every product shines through. We love to be compared, to put our products to the test. Sound good? We think so, and the critics do too.
