## **How to Read a Balance Sheet**

Here's a great video on how to read a balance sheet. The main two documents that any company uses to management it's finances are (1) a balance sheet and (2) an income statement.

A balance sheet tells you how strong financially a company is. An income statement tells you how much the company made over a certain time period.

Better to watch it rather than just listen to it. [Read a Balance Sheet in 5 Minutes Without Being an Accountant](#)
