Water repellent spray for smartphones

Tested to IPx4 level of water protection

Made in the Netherlands

Water repellent spray for smartphones

Zoem's™ unique formula, developed in the Netherlands, protects your phone from water to IPX4 standards in 15 minutes!

The technology

Tested to IPx4 level of water protection

Tested to Ingress Protection Level IPx4. This level protects phones against water splashed from all directions. Limited ingress permitted.

Ingress protection is used to determine if a product's enclosure will protect the working parts from water, dust or intrusion. When foreign matter gets inside a product, they can cause damage and poor performance.

Product features

Unique properties based on 4 coating ingredients

Food-grade coating
Oil based

Apply every 6 months

Repels moisture, condensation, rust, dirt, grease

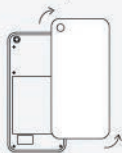

Transparent liquid

QR code for usage instructions

Directions for use.

- 1 Open back of smartphone.

- 5 Wait for 15 minutes.

- 2  2 seconds
10cms

Interior: Spray lightly for 2 seconds from a distance of 10cms all electrical parts, including battery, SIM card, smartphone jack.
Exterior: Spray lightly for 2 seconds from a distance of 10cms all exposed ports, openings, buttons

- 6 Be careful to not touch the electrical parts.

- 3 For best protection do not wipe off solution, solution works best when a thin layer remains on the electrical parts.

- 7 Reassemble the smartphone.

- 4 Please do not spray on smartphone screen.

- 8 No swimming with smartphone.

Usage.

We recommend once every 6 months with maintenance spraying on the parts with wear and tear
