Family Constellation Training 2027

REGISTRATION OPEN

Dear colleagues and friends,
It is with great delight that I announce the opening
of registration for the Family Constellation Training 2027.
The training offers an opportunity to deepen your understanding and
practice of Family Constellation work within a relational, trauma
informed and heart centred approach.
We will learn together through theory, experiential practice
and the wisdom that emerges through the group and the field.

ABOUT THE TRAINING

Designed for people wanting to deepen their understanding of Family Constellation work and develop their capacity to facilitate individuals and groups, the training brings together theory, experiential learning, embodied practice and the wisdom that emerges within the group and the field. Across four three-day, in-person training blocks in Maleny, Queensland, participants will explore the foundations and principles of Family Constellations while developing practical facilitation skills. The training will include working with individual, family and systemic themes, understanding group dynamics in real time, trauma-informed practice, embodied approaches, facilitator self-awareness and opportunities to practise holding constellation work in a supportive environment.

The training is suited to therapists, counsellors, coaches, facilitators, educators, allied health professionals, community leaders and others who feel called to work more deeply with people, relationships, groups and systemic patterns.
